## Miscellaneous.

WHY WE SHAKE HANDS .-- A learned Theban rives us the solution of the frequently conjeceared problem. In the first place it is a very old fashioned way of indicating friendship.— Jehn said to Jehonadab: "Is thine heart glad, my heart is with thine heart? If it be rive me thine hand." It is not merely an old by the sense of touch as well as by the sense at Woodstock Station. of hearing and sight; and for this purpose they employ the most sensitive parts of their bodies. They rub their noses together, or they lick one another with their tongues. Now, the hand is part of the human body, in which the sense of touch is highly developed, and after the manner of animals we not only like to see and hear our friend; we also like to touch him, and promote the kindly feelings by the contact and reciprocal pressure of the sensitive hands. Observe, too, how this principle is ilustrated by another of our modes of greeting. When we wish to determine whether a sub stance be perfectly smooth, and are not quite satisfied with the information conveyed by the fingers, we apply it to the lips and rub it genty upon them. We do so because we know, by experience, that the sense of touch is much more actively developed in the lips than in the hands. Accordingly, when we wish to reciprocate the warmer feelings, we are not content with the contact of the hands, and we ring the lips into service. A shake of hands for friendship is undemonstrative English, at least : but a kiss is the token of a more tender

HAVING PUT YOUR HAND TO THE PLOUGH, LOOK NOT BACK.—The characteristic of genuine beroism is its persistency. All men have wandering impulses, fits and starts of generosity .-But when you have resolved to be great, abide by yourself, and bo not weakly try to reconcile ourself with the world. The heroic cannot be every fair it has been exhibited. the common, nor the common the heroic. Yet we have the weakness to expect the sympathy of people in those actions whose excellence is outrun sympathy, and appeal to tardy justice. If you would serve your brother coause it is fit for you to serve him, do not take back your words when you find prudent people do not commend you. Be true to your wa act, and congratulate yourself if you have done something strange and extravagant, and broken the monotony of a decorous age. It was a high counsel that I once heard given to a young person, "Always do what you are afraid to do." A simple, manly character need never make an apology, but should regard its past action with the calmness of Phocion, then he admitted that the event of the battle from the battle.—Emerson.

R. R. R. PILLS, PURGATION MADE PERFECT. IN DR. RADWAY'S PILLS.

Extracts from "FALSE AND TRUE," A New Medical Publication free to all, by sending one stamp to pay postage to JOHN RADWAY, M. D. & Co., 439 St. Paul Street, Montreal.

THE DIGESTIVE ORGANS. Showing the course of substances taken into the stomach along the canal. 2. The Traches. 3. Esophagus. 4. Inside Stomach, 5. Gall Bladder. 6. Duedonum. V. The Annus.

The above diagram shows the course of substances taken into the stomach, through the alimentary canal, and here we may remark the importance of every one desiring to enjoy perfect health, to secure perfect digestion. This desideratum will be accomplished by taking one of Radway's Pills every morning about ten o'clock, as a Dinner Pill. By so doing, Dyspeysia, Headache, Foul Stomach. Biliousness will be avoided, and the food that is eaten contribute its nourishing properties for the support of the natural waste and decay of the body.

Important Digestion forements are supported to the properties of the support of the natural waste and decay of the body. IMPERFECT DIGESTION. Imperfect Digestion frequently occurs when the bowels are regular, the constituents of solids that are not absorbed in circulation, from imperfect digestion are frequently directed to the kidneys for its escape; in such cases serious damage is done to the kidneys, as the urine secreted from imperfectly digested substances or food, i. c., those constituents not secreted by the Liver or gall duct, establishes a foreign secretion in the form of Albumen, Sugar, Urea-Uric Acid, Lithic Acid, causing Bright's Disease. Diabeates, Dropsy, Renal Diseases of the Kidneys, Congestion, Degeneration, Ulceration, Gravel, Bloody Urine, &c. To prevent those serious and often fatal difficulties, take one of Radway's Pills every morning two hours before dinner.

Imperfect Digestion may be known by a voracious appetite, craving for food, great thirst, dryness in the mouth, dry skin, hot fætid breath, restlessness, swellings in the abdomen, chest, legs, cold foet, frequent desire to urinate, varied colored urine, &c. Where these symptoms are present, the SARSAPARILLIAN should be taken three times per day, and the Pills one to six, as the case may require. As soon as digestion becomes perfect these unfavorable symptoms will disappear.
