The following shows the amount of money which has been or will have been corporated and the Federal Governments, but has been or will have been expended in New Branswick at the close of the year, including more thanking of the provisions of the the bond and the Federal Governments, but have been expended in New Branswick at the close of the year, including more thanking of the bond and the Federal Governments, but have been expended in New Branswick at the close of the year, including more thanking of the bond and the Federal Governments, but have been expended in New Branswick at the close of the year, including more thanking of the bond and the Federal Governments, but have been expended in New Branswick at the close of the year, including more thanking of the bond and the Federal Governments, but have been expended in New Branswick at the close of the year, including more thanking only as in working each of the year, including more thanking of the bond and the Federal Government. High distribution between the been some correspondence at first between the Local and the Federal Governments, but have been expended in New Branswick states and the year of local popularity would never be made the time not seaso of croups, whooping yough, shopping one popularity, would never be made the federal Government. High distribution in the stable and the Federal Government. High distribution is the world in the stable and the Federal Government. High distribution is the world in the stable and the Federal Government. High which the time not seaso of croups, whooping yough, and one of the year of the time not seaso of croups, whooping yough, shopping the provisions of the full, are not the find the winth each of the fill, are not the fill, are not the success, in the Condon's Andthanking the world in the sead which the would never be made in the report of the time not the fill and the fill and the federal Government. High distribution is the whole hold of the federal Government in the condition had the federal Government. Hi

11,000 as being perfectly usetes, and now he finds it to 1878 be a most necessary institution. And then there the a most necessary institution. And then there the farmed as similar to those of the Chancellor of the Sender of the Council. The Government could not exist without a head. But the office was quite useless, and it would be better to 50,000 between the first of the Sender of the Sen

conduced, will probably extend over a number of days. We give a synopsis of the speeches of the Premier and of one or two other gentlemen on either side.

Sir John A. Macdonald moved the second reading of the Bill for the organization of the Marine and Pisheries Department, and in doing so, alluded to the formation of the Dominion when he himself was a minister did he not reform a dead man. The snot where he foll is

the Minister of Justice. He had also shown that although a Minister might not be able to obtain a seat in the House, and had not the confidence as seat in the House, and had not the statement of the House and the of his constituents, he might yet retain a plr ce net representation was the result of political ex- varied richness of intellectual gifts, he had also of March, instead of the 21st, as we had it.

in the Cabinet, to show to the people of Nova pediency, rather than of necessity. In adminis- had the happiness to enjoy an intimate communi-Scotia that a place in the Cabinet was reserved for them. The House had only to discuss the changes rendered necessary by this new constitution. In the adjoining country, with much greater interests at stake, they had much fewer of the country for the country for the country for them. The House had only to discuss the changes rendered necessary by this new constitution. In the adjoining country, with much greater interests at stake, they had much fewer of the country for th greater interests at stake, they had much fewer Ministers ought to remain in office Ministers In the face of the fact that the Rewithout that Province being fairly represented in one whose heart was open to every man, whose inst. It will be many years in all probability,

Justice had told us that the Receiver-General member for Lambton. His honorable friend at How easy it might have been for him to and Minister of Inland Revenue were simply the head of the Government had very ably and sail along the tide of popularity, had he been Ministerial offices, the responsible head of their clearly described the manner and object of form swayed by no higher aims. But he had been Departments being the Minister of Finance, who was responsible for the whole financial policy of was responsible for the was responsible for the whole financial policy of was responsible for the whole financial policy of was responsible for the w was responsible for the whole financial policy of the Government. The objection to the Departments was not the salaries of the Ministers, but of the numerous staffs which the erection of new Departments. They needed in the Ministers which had formed partments made it imperative to maintain.

As for the Secretary of the Interior, there might had in preference taken the line of duty. He could not help being struck by, and co

his name to documents prepared for him by the Sources of revenue. But then, there was a new Sources of revenue. But then, there was a new Sources of legislation arising out of the extended by could not perceive any necessity for more than sources of legislation arising out of the customs and the requirements of legislation arising out of the extended of large denomination, was found in an old building in First Street, Brooklyn, E. D., recently. On inquiry it was found that a gentleman re-2,000 one Secretary of State. When the Department of Agriculture was created the gentleman at the head of the Government opposed it very warmly 14,000 head of the Government opposed it very warmly 11,000 as being perfectly useless, and now he finds it to 11,000 head of the Government opposed it very warmly 11,000 head of the Government, that, if he had 11,000 head of the Government of

so,000 only holding office while ministers remained in office. He conceived that there were six ministers that might well be dispensed with Referring to the Minister of Inland Revenue. He to the Minister of Marine and Fisheries he sup-

Main and Fisteries Department, and is doing so, alluded to the formation of the Dominion Cabinet and to the nocessity which existed the not reconstitutes a possible cabinet should be considering the interest of the Maritime Provinces, in the matter of Cabinet representation is was ancessary that responsible Cabinets should have the confidence of the Confidence of the Dominion Cabinet. The plan of Cabinet have had not been a true here of a verified of the Confidence were fairly represented in this House. Dr. Tupper had in the Dominion Cabinet. The plan of Cabinet should have had a determined in this House. Dr. Tupper had in the Dominion Cabinet. The plan of Cabinet should be a President of the Council, And the notes the not reconsidered that the service of the consideration of the Connection of the State of the Connection of the noted Dominion Cabinet. The plan of Cabinet of the Dominion Cabinet. The plan of Cabinet of the Dominion Cabinet of the Domini

ceiver-General of old Canada was merely the book keeper of the Finance Minister, and was quite useless, under the Dominion that sinecure was open to every man, whose friendship was sincere, and whose quarrels were written in water, he might have lived a long their appurtenances.

It will be many years in all probability, a band of young nouseofer written in water, he might have lived a long their appurtenances.

It will be many years in all probability, before this prosperous little village entirely rethe time to time visited the second and the Finance Department still their appurtenances.

They made their rendezvo was retained and the Finance Department still their appurtenances.

Hon. Mr. Galt paid a high compliment to the death—a martyr to the cause of his country.—
