EXTRAORDINARY INVENTION IN SCOT LAND —The Edinburgh correspondent of the London Telegraph says:—" One object of interest has been occasionally travelling on the roads about Leith and Edinburgh for a few weeks past which I conjecture will continue to be an object of interest for the time I have mentioned. It was what is called a 'road steamer,' a machine like a small railway engine set upon three wheels, one in front and two behind the middle—a ma-chine weighing about five tons, capable of drawing sixty tons at a slow pace on a good road, of going over the roughest road and climbing the steepest, and of travelling over plowed land or the like with the most perfect case. It was the invention of Mr. R. H. Thompson, C. E., of WHOLE NO.-998. Edinburgh, the inventor of a system of floatin docks : of the steam winch, a curious and mos effective rotary engine which was exhibited at the recent Paris exhibition and attracted much Dien Bourcicault, commenting on the Albert Items foreign & Local. ttention there; and of various other nieces of mechanism.
