Miscellaneous.

ESCAPE FROM A HAREM—A DIPLOMATIC QUESTION.—A curious story is now in circulation amongst diplomatists in Paris. A young Circassian slave, it is said, escaped the other day from the harem of Latif Pasha at Alexandria, and, in her eagerness to find a refuge, went to the residence of the Prussian Vice-Consul, mistaking him for the Consul of Russia. The Vice Consul then declared that the slave had, in accordance with the treaties on this subject, become free the moment she entered the office of the Consulate; and his statement being supported by the Consul-General, the usual emancipation papers were issued to the slave by the director of police. However, she was arrested by Latif Pasha for theft. The Prussian Consul protested against the arrest, and a very animated correspondence took place between him and the Egyptian authorities, in which the British Consul also took part, siding with his Prussian colleague. Upon this the Viceroy stepped in, and requested the Russian Consul-General to act as arbiter in the question. This was opposed in such strong language by the British Consul that (so goes the story) the Viceroy complained to the French government that the English were abusing their influence in this country, and asking the protection of France. It is also said that M. Outrey, the French Consul-General at Alexandria, who is now in Paris, will shortly return to his post with special instructions relating to the Viceroy's appeal.

THE AIR OF PERU.—The New York *World* says:—If a letter-writer from Lima, Peru, is to be believed, there is a region forty leagues from that city, called the valley of Juaca, where the climate "restores consumptive persons to health as certainly as night follows day." No other medicine is required except the pure air of the valley. Hundred of persons are said to go from all parts of Peru yearly to be cured of this terrible disease; and although the writer anticipates that medical men "will smile at the idea of consumption being curable," he still avers that every invalid—excepting only those in the last stage of the malady—returns physically sound after a residence in Juaca of from one to two years. This statement ought to interest medical readers and those who may be afflicted with consumption, enough to induce some inquiry into the truth or falsity of it.

CHEAPNESS OF CHINESE WARES.—A vessel recently arrived at San Francisco with a large amount of goods from China, purchased at prices so remarkably cheap that the custom house officers at that port would not believe in the veracity of the invoices, and seized the goods as falsely valued by the purchasers. The probability is, however, that the invoices are correct, it takes so little to sustain life in China, and wages are so low. In the importation were handsome sets of porcelain bought for four dollars the set. Beautiful fans, painted by hand in brilliant colors, with figures of Dragons and Chinese beauties purchased at a cent each Spades for garden use bought at the cost of a few cents each. Straw hats of a good quality invoiced at a cent each. Nice baskets, in sets of four, costing in the Celestial Kingdom but four cents a set, and other articles equally low.

At Faraday, Ont., several lumbermen recently saw what appeared to be a stream of fire which appeared to be about 20 feet in length, which seemed to be shooting diagonally towards the earth, until within 100 feet of it, when it gradually commenced to rise and shortly after exploded with a noise resembling a cannon shot, and was followed by a heavy rumbling sound like thunder. The report was heard at other shanties ten and twelve miles distant.

Just Received.

Railway Commissioners' Office,
St. John, N. B., Nov 20, 1867.

PATENT SUN BURNERS,

For Safety, Economy, and Brilliancy of Flame, is unsurpassed.

THE LEADING MERITS ARE, VIZ:

FIRST—It is simply constructed and the draft so arranged as to prevent the parts contiguous to the oil from becoming heated to cause the generation of gas; therefore it is non-explosive.
SECOND—The glass chimney can be removed by hand at the lower part, without burning the fingers, and should be tipped at one side on removal.
THIRD—It saves one third in oil, for the reason that no light is hidden below the metallic cone, therefore you obtain the whole light—clear, white and cheerful.

IMPORTANT.

THE Proprietors of the United Provincial Commercial College have much pleasure in announcing to the Business Community, and friends of Education and progress in general, that they have extended operations by opening in the City of Halifax under auspicious circumstances. This is of importance, for it gives our students a much wider field for their enterprise, as our Diplomas will be appreciated not only in one City or Province, but in Provinces, and throughout the "Dominion of Canada."
Young man, are you nobly and honorably trying to better your condition? Remember, "Knowledge is Power;" men generally get that position of honor, emolument and dignity for which they prepare themselves. Can you point out any calling or profession, where in so short a time, for such a trifling sum, you may obtain such a ready passport of success? A boundless field of business enterprise lies before you, a vast continent of inexhaustible resources. The world is astir about you, progress is the motto of the age; let no man win your prize; step forward boldly, have self-reliance, with an honest intent and indomitable perseverance, and success is yours.
☞ Life scholarships good for either College, $35; Books, &c., $10; Circulars with every information, free on application. A. H. EATON,
RESIDENT PRINCIPAL,
Ritchie's Building, Princess street,
Oct 18, 1867—42 St. John, N. B.
