Own?"-Such is the question put by a Massachusetts correspondent of the American Agriculturist. In reply, the editor of that paper the public generally. There present stock consists in gives his interrogator the benefit of some of his observations while on a tour through the country. He says :

is more for them to manage than a thousand acres for others. A man may safely own just as much land as he can make pay six per cent and upward on the capital invested in it and in its cultivation Six per cent is the lowest legal rate of interest in any of the States, and probably it is a fair average of the profits of all kinds of business. Some men have skill enough to make their land majority of our farms do not pay five per cent and many of them not even three. We recently visited a district of cheap lands and poor farming in one of the older States, which furnishes good examples of " muchness of land " One farm of 250 acres of land rents for \$200, and the owner pays \$60 taxes on it, leaving only \$140 fer the use of the farm. It is valued at \$7,000. and is probably worth that to any man who knows how to work it. But the owner only gets two Boot & Shoe Shop per cent on his capital, or 56 cents an acre for the use of the land. The tenent keeps a dairy and sheep, pays his rent easy, and gets some thing more for his labour than he would to work by the month, but is not doing a very profitable business. The farm might easely be made to clear a thousand dollars for its owner, for it is a good grain soil, and has admirable facilities for making manure. Another owns a farm of a thousand acres, which he rents for \$1000. The farm was purchased some 15 years ago for \$2,000. Deducting taxes, the owner gets AUTUMN CIRCULAR. about four per cent for his capital and one dollar an acre for the use of his land The tenant keeps a dairy of 38 cows, and a good many young cattle and working oxen, in which he trades, perhaps a hundred head in all through the grazing season. He clears perhaps \$2,000 a year, making rather more by his skill as a cattle trader than as a cultivator. This is a shore farm of very good soil, with unrivalled THE STOCK IS NOW COMPLETE AND OPEN FOR INSPEC facilities for gathering sea manures. Its products could readily be brought up to \$20,000 better land, but much better managed. A single item is 1000 bushels of potatoes from five acres of land. We want more skill and capital concentrated upon the land.

"They say" is a fool. Don't mind it can't hurt you. If you are a truthful, correct, honest man or woman, what does talk and tattle concern you? "They say "this, that and tother. Very well, let them say. Truth isn't made out of falsehood. The thing can't possibly injure you. In the long run—and everything runs as long as it can—the good and true triumph. Gossip—large and small—never does any real injury except that its subjects take up in earnest; and no true man or woman ever wants to wade in the filthy water. Don't let "they say" have the slightest influence over you. If its true and bad, correct yourself; if the false let it go.

1. The Mouth. 2. The Trachea. IMPERFECT DIGESTION. The above diagram shows the course of substances taken into the stomach, through the alimentary canal, and here we may remark the importance of every one desiring to enjoy perfect health, to secure perfect digestion. This desideratum will be accomplished by taking one of Radway's Pills every morning about ten o'clock, as a Dinner Pill. By so doing. Dyspepsia, Headache. Foul Stomach Imperfect Digestion frequently occurs when the bowels are regular, the constituents of solids that are not absorbed in circulation, from imperfect digestion are frequently directed to the kidneys for its escape; in such cases serious damage is done to the kidneys, as the urine secreted from imperfectly digested substances or food, i. e., those constituents not secreted by the Liver or fall duet, establishes a foreign secretion in the form of Albumen, Sugar, Urca-Uric Acid, Lithic Acid, causing Fright's Disease. Diabeates, Propsy, Banal Diseases of the Kulpays Congastion, Propagation, Licensian, Crevel, Licely, Uring, Sec., To prevent those serious and often fatal difficulties, take one of Italway's hills every morning two hours before dinner.

Imperfect Digestion may be known by a voracious and elic craving for fool, great thirst, dr. ness in the mouth, dry skin, hot feetid breath, restlessness, swellings in the ablomen, chest, legs, cold feet, frequent desire to urinate, varied colored urine, &c. RESOLVENT.

This extraordinary medicine is making astonishing cures of all kinds of Skin Diseases, Salt Rhoum, Tetters, Rash. Erysipelas, Kings Evil, and all ERUP-TIVE DISEASES of the Nose, Mouth, Throat Eyes, Ears, Legs, &c. It has made some of the most astonishing cures of uncured Syphilitic and Scrofulous Diseases, Fever-Sores, Ulcers, Tumors, Swellings of the Glands, and Mercurial Sores.

In all cases of weakening discharges in Ladies, as Leuchorrea, Flouralbus, and discharges from the ELEGANTLY COATED—NO TASTE OR SMELL.

SCOURING THE INSIDES.

Persons who take Pills for the purpose of getting "a good scouring out" are perhaps not aware that they are wearing away their intestines, irritating the Mucous Membrane, and laying the foundation for Piles, inward Ulcers, Sores, &c. Mandrake, that is claimed by some to be a substitute for Mercury, will produce this effect; it will scour the bowels like any other drastic, and will wear them out (see page 666. Wear Baches, U. S. Pharmacopia).

Baches, U. S. Pharmacopia.

Baches, tely cured, and by one teaspoonful, three times per day, enjoyed the felicity of passing their water naturally. In all cases see that the word "Sarsaparillian" is on the label of each bottle, and on the front of the label R. R. R. RADWAY'S RENOVATING RESOLVENT. Price one dollar per bottle, six bottles for five dollars.
