Miscellaneous.

Go TO SLEEP EARLY .- Many children stead of being plump, and fresa as a peach, are as withered and wrinkled as last year apples, because they do not sleep enough. Some physicians think that the bones grow only during sleep. This I cannot say certainly; but I do know that those little folks who sit up late at nights are usually nervous, weak, small and sickly. The reason why you need more sleep than your parents is because you have to grow and they do not. They can use up the food they eat in thinking, talking and working, while you should save of yours for growing .-You ought to sleep a great deal. If you do not you will in activity consume all you eat, and have none, or not enough to grow with. Very few smart children excel, or even equal, other people when they grow up. Why is this? Because their heads, if not their bodies, are kept too busy; so they cannot sleep, rest, give satisfaction to the purchasor. WM.
