Ayer's Sarsaparilla, FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures many of which are truly marvellous. Inveterate ease, where the system seemed saturated with corruption, have been purified and cured by it rofulous affections and

they were painfully afflicting, have been radically cured in such great numbers in almost every sec-tion of the country, that the public scarcely need to be informed of its virtues or uses. be infermed of its virtues or uses.

Scronilous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the enrices or among the vitals. In the latter, tubersurface or among the vitals. In the latter, tuber-cles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcer-ations on some part of the body. Hence the occa-sional use of a bottle of this Earsapartilla is ad-

Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this BARSAPARILLA: Bt. Syphilis or Jenereal and Mercarial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorrheea or Whites, Uterine

Minute Directions for each case are found in our Almanac, supplied graits. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpicity, Congestion or Inflammation of the Liver, and Jaunatce, when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA it a great restorer for the strength and vigor of the system.
