

Terms of the Carleton
 \$1.00 per annum in advance.
 Single copies, 50 cents.
 The year, after the expiration of which \$3.00 will be paid.
 By our system of direction, the collector on each paper shows subscribers how to get it, and that it is unnecessary to render accounts.

The Carleton Sentinel.

Saturday, November 27, 1869.

The St. John Globe while endorsing, in general terms, the suggestions recently made as to the advisability of a railroad from Woodstock to Riviere du Loup, expresses the belief that St. John will look with a degree of suspicion on any new railroad enterprise. This is the substance though not the terms of our contemporaries remarks.

Now, we do not think that, at all events, the Corporation of St. John has risked or lost sufficient by railway enterprise to have learned as a body over due prudence. If it be true, as we have seen it stated, that the Corporation only subscribed \$60,000 stock in Western Extension, and then charged \$3,000 land damage for ten acres of swamp land outside of the city, it stands in a very mean position, either viewed in the light of its own interests, or as compared with what Fredericton and Woodstock have done for railways.

We think, and always have thought, that in the matter of the Intercolonial, St. John was greatly derelict, and, studying its own interest, the importance of securing the trade, or portion of the trade of the upper provinces in its passage to the sea, in so far as, by any apathy, it failed to secure that by the Intercolonial, it should more diligently seek to retrieve the mistake by immediate action in behalf of the now proposed through line. These remarks may serve as an introduction to the following Prospectus which speaks for itself. We shall take care that so far as the SENTINEL can prevent it the agitation shall not die.

PROSPECTUS.

THE QUEBEC AND NEW BRUNSWICK RAILWAY.

(By the valley of the river St. John.)

WOODSTOCK AND RIVIERE DU LOUP.

The opening of the Western Extension Railway, so near at hand, by which Fredericton, Woodstock, St. Stephen and St. Andrews will be brought into communication with the city of St. John, must excite the attention of the people of the Dominion, and the sense of the importance of a further extension of the existing system of Railways, to the Grand Falls and Riviere du Loup.

The Quebec and New Brunswick Railway, for the construction of which a Company is being organized, is destined to supply this communication, and to connect the "Western Extension," "New Brunswick and Canada," "Fredericton, St. Stephen, and Woodstock Branches," the "European and North American," and the Nova Scotia Railways, with the "Grand Trunk," the "Intercolonial," and general system of Railways in Canada and the Great West.

The distance from Woodstock to the intersection of the boundary of Canada is about One Hundred and twenty miles, and from there to Riviere du Loup about Sixty miles, making in all One Hundred and Eighty miles of Railway to be constructed to effect communication between Halifax, St. John, Quebec, Montreal, and Canada West.

This route possesses advantages over every other yet proposed through British territory, as constituting, with its connection to the Intercolonial, the shortest and most direct medium of communication between the several Canadian Provinces east and west.

All the Railways in the Dominion, and especially those of New Brunswick and Nova Scotia, will benefit by the completion of this link in the chain of Intercolonial communication.

Whilst it will open to the people of Quebec the resources of the great and fertile Valley of the River St. John now closed to them entirely, and attract the large traffic of the Province of the North to the coast, it will enable the city of St. John to recover the trade that has been lost to the coast.

The next is the "Paper Collar Factory" of E. Willis & Co. The consumption of paper collars has grown to be enormous, and the Provincial demand is being largely supplied by the firm above mentioned, who have, in their Factory, Campbell street, St. John, in operation the most approved machine, and these directed and aided by the nimble fingers of a score or more of girls, produce the desired result in collars which for beauty of finish, shape, and durability, are not surpassed by any imported goods.

We have long had the pleasure of directing the attention of dry goods buyers visiting Fredericton to the establishments of John Thomas and Thomas Logan. These gentlemen have each full an unsuperseded stock of seasonable goods.

A new aspirant for public patronage, in the dry goods line, at Fredericton, has in his name in this issue. Mr. Robert Keddy has opened a large, varied, and well selected assortment in a new store on Queen street, specially fitted up for the business, and there, as will be seen by the advertisement, offers great inducements to wholesale and retail buyers.

It is expected that the Dominion Parliament and the Legislature of Quebec and New Brunswick recognizing the benefits to be derived from the completion of this undertaking, will materially aid it by subsidies of money; and in addition, that the Local Government will assist by grants of Public Lands in the vicinity of the Railway. The remainder of the necessary capital will be raised by means of Debentures, bearing six per cent. interest, and constituting a charge upon the Railway Works, Tolls, &c., and on the Lands to be granted by the Government, thus forming an unexceptional security.

It is estimated that the entire cost of the Railway will not exceed \$200,000 per mile, fully equipped with Rolling Stock; and that the traffic receipts, combined with the revenue to be derived from the sale of the lands and Timber, will pay the interest and liquidate the Debentures.

H. G. KETCHUM, Acting Engineer, Fredericton, N. B., October, 1869.

New Paper.

We have received from the W. Grand Lodge of British Templars of this Province, a Prospectus of a new paper, the publication of which is to be commenced in January 1870, for the above body, by Mr. James Watts, at the office of the CARLETON SENTINEL, Woodstock. The paper will be issued monthly, and devoted to the interests of the Temperance cause, seeking to strengthen the influence of the several Temperance bodies and unite them in the great moral reformation they have in hand. We have no doubt that this proposed periodical will be useful, not only an interesting medium for the communicating of Total Abstinence information, but a desirable guest in the Home Circle, as a vehicle of pure and improving literary thought. It is to be published at 50 cents per annum, payable in advance—this includes postage—and the price is fixed so low that none need be deprived of its enjoyment from a want of means.

A limited portion only of the paper will be used for advertising, and those wishing to use it should make early application for space to the publisher at Woodstock.

Names of subscribers (with remittance) forwarded at once either to the publisher or to the Editor.

liber as above, or to the W. G. Secretary, J. S. Colpitts, Esq., Salisbury, Westmorland Co.

We commend this fresh effort, to establish a Temperance paper, to the kindly and philanthropic sympathy of all who desire to aid in the spread of pure morals and a healthy Temperance sentiment.

On Wednesday next, 1st December, the Western Extension Railway will be formally opened, with becoming demonstrations, from Fairville, St. John, to the boundary line at the St. Croix, a distance of 88 miles. The contract for this portion of the E. & N. A. Road was taken in July, 1867, by Mr. E. R. Burpee, and the contract has been filled, or will be previous to the expiration of the time agreed upon, including Station Houses, Telegraph line, &c. This is said to be the quickest constructed railroad ever built on the Eastern portion of the Continent.

Mr. Burpee's most persistent and never wearying efforts to be attributed, largely by the present state of the road now mentioned: it was his hobby at a time when there seemed little probability of it being built, and he has never forsaken the hobby for a moment. There remains a distance of 56 miles to be built to complete the connection by rail with Bangor; of these, 12 miles are now under construction, and the other day, at St. John, an arrangement was made by which the American Company became charged with the completion of the whole line, including a bridge over the harbor of St. John, within 1871.

There is a feature in connection with the building of the road from St. John to the St. Croix deserving of notice. All the contractors, officials, and, with one exception, the contractors, are natives of New Brunswick; and while the work has been done with so much speed, to their credit, may be said they have turned off a piece of work which is scarcely surpassed in point of excellence by any railroad on the continent. Nearly all the rolling stock is likewise of domestic manufacture.

The demonstration, proposed for Wednesday next, is an important event for this Province. On that day 112 miles, including the Fredericton Branch, will be simultaneously opened for the trade of the Province, completing on the South-western portion of New Brunswick a "net work" such as a few years ago used to be talked about by men who were then regarded as enthusiasts.

We are requested to state that there will be a public Temperance meeting at the Meeting House, Lower Brighton, on Monday evening next, commencing at 7 o'clock. The special object in view, we understand, is to consider the question of resuscitating the dormant Lodge of British Templars at that place. Several speakers will address the meeting, and the public are cordially invited to attend.

The store next door west of Vanwart & Co's, being the same recently occupied by B. Johnson, has been taken possession of by Mr. N. S. Lockwood for the purpose of carrying on therein a general grocery business. Mr. Lockwood has had a nice stock of Teas, Sugars, Molasses, Tobacco, Fish, Salt, Spices, Crockeryware, Glassware, Confectionery, Kerosene Oil, Lamps, &c. Those patronizing Mr. L. will find him a straightforward, accommodating man to deal with.

The Grand Jury, St. John, last week found two bills against the prisoner Maurice for the murder of Miss Vail and her child. The trial commences next Tuesday. The prisoner at his arraignment showed no signs of breaking down, but maintained that careless appearance which characterized him at the Inquest.

A pretty piece of music, more choice poetry, and a table of prices contents is equally varied, and more sterling in character than those of former numbers. It is improving in character, and is a good investment for the subscription price, \$1 per year.

Editor CARLETON SENTINEL.
 Mr. Editor, A very interesting Temperance meeting, under the auspices of N. B., was held at the School House on the 10th inst. Eloquent speakers on the occasion were assisted by Bro. Anderson, Barker, Britton, Philpott, Shaw, &c. The choir was excellently fitted by Bro. A. Phillips, W. C. T. The attendance was as good as could have been expected, and we believe the meeting will result in good.

The Lodges in this locality have considerable opposition, but the members are strong in the faith and determined. We regret exceedingly that professed Christians should be found in the ranks of the opposition, especially teachers of righteousness. Christianity should always be allied with "good works."

Yours,
 TEMPLAR.
 Shawville, C. C., Nov. 20, 1869.
