## Hair Vigor,

question further. Debate adjourned.

For restoring Gray Hair to its natural Vitality and Color. A dressing which

is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and bald-

ness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed or the glands atrophied and decayed But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a
