The offers to-day were at 83-8 re of coal of all kinds in Quebec and Ontario. The most important feature of the part that Nova Scotia is called to play in the fuel queston of the future, is that of cheapening the cost. Let us examine this question by the prices of 1868. During last year, good grate coal ranged from \$6.50 to \$8.50-averaging \$6.70 wholesale. British steam coal averaged \$5.95. British smith coal ranged from \$2.25 to 6.00. During the same period Pictou steam and smith coal offered at \$3 25, grate coal at 4 00. hair is soon restore

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted
