Ayer's Cathartic Pills, For all the purposes of a Laxative Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative

Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always that it never fails through any fault or neglectof its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease. Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—
For Dyspepsia or Indigestion, Listlessness, Languor and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action. For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased ction or remove the obstructions which cause it. For Dysantery or Diarrhoea, but one mild

dose is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints For Dropsy and Dropsical Swellings they hould be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. The above diagram shows the course of substances taken into the stemach, through the alimentary canal, and here we may remark the importance of every one desiring to enjoy perfect health, to secure perfect digestion. This desideratum will be accomplished by taking one of Radway's Pills every morning about ten o'clock, as a Dinner Pill. By so doing, Dyspepsia, Headache, Foul Stomach Biliousness will be avoided, and the food that is eaten contribute its nourishing properties for the support of the natural waste and decay of

the food that is eaten contribute its nourishing properties for the support of the natural waste and decay of the body.

Imperfect Digestion frequently occurs when the bowels are regular, the constituents of solids that are not absorbed in circulation, from imperfect digestion are frequently directed to the kidneys for its escape; in such cases serious damage is done to the kidneys, as the urine secreted from imperfectly digested substances or food, i. c., those constituents not secreted by the Liver or call duet, establishes a foreign secretion in the form of Albumen, Sugar, Urea-Uric Acid, Lithie Acid, causing Bright's Disease. Diabeates, Bropsy, Renal Diseases of the Kidneys, Congestion, Degeneration, Ulceration, Gravel, Bloody Urine, &c. To prevent those serious and often fatal difficulties, take one of Radway's Pills every morning two hours before dinner.

Imperfect Digestion may be known by a voracious appetite, craving for food, great thirst, dryness in the mouth, dry skin, hot feetid breath, restlessness, swellings in the abdomen, chest, legs, cold feet, frequent desire to urinate, varied colored urine, &c. Where these symptoms are present, the SARSAPARILLIAN should be taken three times per day, and the Pills one to six, as the case may require. As soon as digestion becomes perfect these unfavorable symptoms will disappear.
