Mr. B. experienced religion, and was baptized by Blder J. Noble, in March, 1843, from which time till his death he lived and acted the consistent christian. He patiently bore his sickness with resignation to the Divine Will; and in his last moments his soul experienced the power of Jesus to save. Triumphing ever the monster death, he exultingly passed to his House not made with hands, eternal in the heavens While around his bed lamenting, His wife and children stend;

He urged them to cease weeping, And put their trust in God. (Religious Intelligencer please copy. At Moneton, on the 18th ult., of consumption Eugene, fifth son of Peter McSweeny, Esq., aged 19 years and 11 months. At Northampton, on the 25th ult., after a short ili

and Consumption. Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent series of years, and among most of the races of men it has risen higher and higher in their estima-tion, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dan-gerous affections of the throat and lungs. As a pro-vision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them. Although settled Consumption is thought in-curable, still great numbers of cases where the dis-case seemed settled, have been completely cured, and the patient restored to sound health by the over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully Ayer's Ague Cure, For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise

Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed. Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the AGUE CURE daily. for Liver Complaints, arising from torpidity
