scrofulous diathesis, and as such, are within the curative range of the SARSAPARILLIAN RESOLVENT!

1. That Scrofula, by whatever name designated, is the result of deposits from the blood, induced or caused by Chronic inflamation. That those deposits take place

presence of some virus or poison in the blood, as Mer-cury, Calomel, Corrosive Sublimate, which is the Corro-

sive Chloride of Mercury or other agents, given in medi-

cines and which enter largely in the common advertised Sarsaparillas, NOT ABSORBED OR CHANGED FROM THEIR NATURAL CONDITION.

2. That unless the repairs or nutriments are greater

feet system of cure is exhibited as follows:

1. Its great power in assimilating the food in its first stage of distillation in the process of digestion, as chyme and chyle with the nourishing elements of blood, seperating from these liquids refuse and inert qualities before they are taken up by the lactecals and are formed into blood. Here we see that by its wonderful

power it charges the system with the very essence or

principle that forms the vital powers of the body, and its chemical action on the blood in its primitive and complete condition, separates every atom of refuse material or element, out of which the virus of disease is formed.

As we have shown the principle on which disease is formed, as well as the only sensible theory of cure, we claim that the range of cure of the Sarsaparillian Resolvent is unlimited, and that every disease that is of a Chronic, Scrofulous or Organic Diathesis, is, properly within its special range.
