THE AMERICAN WATCH. The Public of the United States and Canada have now had over ten years' experience of WALTHAM WATCHES, and they are now everywhere acknow-ledged to be the ONLY RELIABLE

TIME-KEEPERS. Almost all other watches are sold under false pre-tenses; not one in a hundred bears the name of the real maker; the public have absolutely no security, and have therefore been constantly imposed upon.—
On the contrary, every buyer of a Waltham Watsh gets a guarantee of the Company, and no matter from whom he buys it, has positive security that he is getting a Time-Keeper.

It must be admitted that the apparent interest of watchmakers lies on selling other watches on which they can make larger profits; but men of enterprise in the trade prefer an article of large and ready sale, EFFICIENT Canvassers in every County in New and which leaves no bad stock. It is "small profits and quick returns." These watches can be had in several grades-all guaranteed-the silver cases are made from coin sil-
