ONE HUNDRED CASES OF CONFIRMED CONSUMPTION
where one Lung in over seventy cases was destroyed and where one Lung in over seventy cases was destroyed and dried up, and in over

500 CASES OF SUSPECTED CONSUMPTION.

DR. RADWAY, three years since, published to the world his analysis of the Blood in the several stages of CONSUMPTION, showing in every stage, that where tubercles become deposited in the Lungs and other organs, as in the Kidneys, Liver, Spleen, Bronchial Glands, Intestines, establishing Consumption of these organs, the BLOOD is thin, weak, pale, watery, and is deficient of such constituents as fibrin Albumen, Phosphorus, and the rich red coloring discs of the Blood Corpuscles. In the absence of these constituents in the Blood, the Blood is exhausted of strength and nourishment, and wherever there is inflammation it deposits tubercles and decomposition, it has not the power to held in solution its natural constituents, and Ulcers, Sores, Tumors, Cancers, and Virulent Humors are formed, the presence of which causes inflammation, gathering, and consequent suppuration.

This, reader, is the true cause of the formation of Tubercles and Consumption. Dr. Radway was the first to advance this theory of the cause of Consumption and its kindred diseases, and prepared the RADWAY'S RESOLVENT to supply the Blood with such constituents it was deficient of, in these conditions of system, and to give it the nourishment and strength to hold its natural constituents in solution. Dr. Radway's theory was published in England, France, Germany, and America, and was seized upon by the scientific men of both hemispheres. From his text medical books have been since published by medical writers claiming to have discovered the cause of Consumption, but have failed to produce the remedy to cure. Dr. Radway was the first to advance this theory, and the first and only discoverer of a medicine that will cure. In RADWAY'S SARSA-PARILLIAN RESOLYENT the public have a remedial agent that will cure Consumption and all diseases of the LUNGS, BRONCHIAL, KIDNEYS, BLADDER, FAUL GOODS.
