SATURDAY, JUNE 3, 1871.

SENTINEL OFFICE, removed to Allan's Brick Building, up stairs.

WATER SUPPLY.

that the losses by fire during the last twelve years have been so enormous.—And just now our people are, some of them very directly, alive to the importance of securing a cheap, efficient and reliable supply of water, from the fact that liable supply of water, from the fact that so enormously increased, and that a presson its rapid flow. This circumstance, alone, very three fore is not distinct the day, with the day scelebration of the destruction effected by Americans, by means of traviling and otherwise the mention, that shed a beam of light over the lent fruit bearers.

There is one characteristic which I wish to cesful efforts in producing varieties of apple the estruction effected by Americans, by means of traviling and otherwise which are hardy, bountiful and excellent from the fish frequenting our costst, tends that the celebration will be in St. John. It is proposed to have a cost left of the destruction effected by Americans, by means of traviling and otherwise which are hardy, bountiful and excellent from the fish frequenting our costst, tends at the celebration will be in St. John. It is proposed to have a cost left of the traviling and otherwise which are hardy, bountiful and excellent from the fish frequenting our costs, tends the excellent from the fish frequenting our costs, the sum of this frequenting our costs, the sum of the string.

There is one characteristic which I wish to celebration on a grand scale. The collebration on a grand scale. The cost of the the string our costs, the sum of the three services of apple to the switch are hardy, bountiful and excellent for the fish frequenting our costs, the sum of the sum of the string our costs, the sum of the su sure is being brought to bear upon our fire engines, engine houses. &c., the sale of this make good British Soldiers. "Town Council" to move this body to property, no longer needed, will contribute secure a "Steamer" or some other method of safety in case of fire.

The reduction of insurance rates in the entire cost of the Waterous machinery. Brantford, immediately after the intro- 6. Another circumstance in favor of these duction of the new water system was 20 works, which commends them strongly, is the

We presume there is not the slightest necessity for a word of warning to the people of this Town, who must all, in view of our late year experiences, feel the necessity for some provision for the safety of the Town from that distructive safety sa element which has more than once so widely devastated it, and against which cost of maintaining existing fire departments when the more than once so to maintaining existing fire departments will brought along some five hundred trees doctrine, that the proposed money idemnity between the nearly all gone. As these trees are started provinces interested and the United States. we are now in a state of utter helples- they will be startled at the amount, and will

Engine is a good instrument, but it is interested to expense of fire departments as expensive in the beginning and involves to have no proper means of southly amountly; but the most secrous difficulty here is the fact that we have no proper means of southly amountly; but the most secrous difficulty here is the fact that we have no proper means of southly and the control of the first that the same times the place of how every law and almost the place of how the place in the place of the place of the first the same times of the expense of fire department as a worse position than we are. In no other section of property, and in other places the place of how expense of the detailed of the United States and the Executive Council of the place the place of how every law and almost the place the place of how the place the ment provided. And—we have a ment provided. And—we have a ready supply of the elsewing the supplied with a full and protected by them.

Town might be supplied with a full and protected by them.

Town moult be the system of the twice of an approximation of the system of the position to say what the cost to the extent of manner every the position to say what the cost to the control of the position to say what the cost to the combine fire protection and water apply into consideration, are of epinion that it is the chapter of how every an applied of the claim of the position to say what the cost to the combine fire protection and water apply of which the expense of constructing into consideration, are of epinion that it is the cheapest system that could be adopted, and counting the saving in it. Such as a position to say what the cost to the comment of the position of the position to say what the cost to the comment of the position of the position to say what the cost to the control of the position of the position of the position of the position to say what the cost to the control of the position of the position to say what the cost to the control of the position of the position to say what the cost to the the annual burden on the people would

CATTLE STARVING IN MADAWASKA, -A

ST. DENIS, May 24.—After a brief lull fighting in Paris recommenced yesterday, continuing all and posterity robbed. We are hopeful that a manly assertion of our rights will secure to the Colonial Treasury such an annual sum, during the existence of the Treaty, as will go sitions still remained in the hands of Federals. by fire from windows barricades and mitrailleuses in the world has appeared in California.— They steadily gain ground but the slaughter in the world has appeared in California.— They steadily gain ground but the slaughter in the world has appeared in California.— They steadily gain ground but the slaughter in the world has appeared in California.— They steadily gain ground but the slaughter in the world has appeared in California.— They steadily gain ground but the slaughter in the world has appeared in California.— They steadily gain ground but the slaughter in the world has appeared in California.— They steadily gain ground but the slaughter in the world has appeared in California.— They steadily gain ground but the slaughter in the world has appeared in the world has a proper wor

THE WESTMORLAND ELECTION CASE. - fifth, fourteenth and sixteenth arrondissements

BRUSSELS, May 26 .- There are reports that the been formed for insurgents leaving Paris to proceed to Brussels where the Radical movement

with a severe attack of Bronchitis, and although the means in their power, they raised to anord me much relief. Hearing of your Hypophosphites and Cod Liver Oil, I procured a bottle, and found no benefit from that. I then obtained a bottle of your Compound Syrup, and took it until it made a permanent cure.

Respectfully yours, MENDAL CROCKER, Freeport, Digby Co., N. S., Jan. 1858.

We have not vet heard of a single failure Esq., South Joggins, a few days ago picked in curing this disease when Fellows' Comout of Sandstone Rock, a fossil foot, of apparently some individual of the human that it is a specific remedy.

For Ladies, in Serge and Leather. For Children all kinds. For Men, coarse and Dress. Also, widely devastated it, and against which we are now in a state of utter helpleswe are now in a state of utter helplesness.
