a while ago !" ming along on the top of the water with him, and they came behind another big fish him, and they came behind another big fish, and the nigger swallowed his tail, and the

nigger and two fish went swimming about!" "Well, then what?" "Why, after a while the nigger swal-

either of them.' "Sonny," said we, with a little feeling of alarm for the boy, "you are in a fair way to become the editor of a political pa- its natural Vitality and Color.

No SMOKING ALLOWED .- Old Doctor Stearns, of New London, in his latter years kept a drug store. A gentleman one day purchased a cigar of the doctor, and light-

ing it began to smoke. " Please do not smoke in the store. 'said Dr. S., politely, "it is against our rule."
"But you sell eigars," rejoined the gentleman, "sell cigars," replied the doctor a little sharply: " and we sell physic; but ened, falling hair checked, and bald-

days, at 8.15 a. m., and Houlton on Tuesdays, not soil white cambrie, and yet lasts the thirtieth day of January, A. D. 1871.

FREDERICK B. COLEMAN, Toursdays and Saturdays, at 8.15 a. m. These Trains will connect at McAdam Junction long on the hair, giving it a rich glossy with trains to and from Fairville & Fredericton.

HENRY OSBURN, Ma aager.

D. J. SEELY, Agent, Water Street, St. John N. B. St. Andrews, Jan. 28, 1870. The Quebec & New Brunswick RAILWAY COMPANY.

New Brunswick Railway Co'y (From Fredericton and Woodstock to Riviere du

Total Authorized Share Capital \$3,500,000. Divided into 35,000 Shares of \$100 each. In addition to the Share Capital, power is reserved to borrow to the extent of \$15,000 per mile in Mortgage Debentures bear-ing 6 per cent. interest.

### PROSPECTUS.

THESE Companies are formed for the purpose of constructing, under Charters granted by the Dominion of Canada and the Province of New Brunswick, an important commercial line of Railway from Fredericton and Woodstock to Riviere du i oup, so as to form a continuous line from Western Canada and the St. Lawrence to the City of St. John, New Brunswick. It will be a continuation of the present system of railways in New Brunswick, connecting with the European and North American, and Fredericton Railways, and the New Brunswick and Canada, and Woodstock Railways, the Grand Trunk and Intercolenial Railways at Riviere du Loup. (See map.
The distance to effect the connection between
Woodstock and Riviere du Loup is about 189 miles,
the total distance to Fredericton being about 232
miles; or, together with a Branch to Woodstock

Surveys have been made of the route, and esti-mates prepared, from which it has been ascertained that the cost of construction will not exceed \$25,-The Legislature of New Brunswick and Quebec have granted in aid of the underfaking the munificent donation of 2,400,000 acres of Crown Lands, to be given to the Company, as the Railway is proceeded with, from the Counties through which it This aid is expected to be supplemented by subscriptions of Stock from the Counties along the

route, as well as from the City of St. John.

The commercial advantages of this undertaking 1. It is (as declared by the Montreal Board of Trade) the shortest and cheapest route for freight from Western Canada to the Atlantic at St. John, where there is an open harbor all the year round.

II. It is the most direct route to Quebec for passengers to and from Europe, either by way of St.

John, or by Annapolis and Halifax.

III. The distance from Quebec to St. John via

Railway, 425 miles. IV. It will connect with Quebec the terminus of the North Shore Railway, the Canada Central, and ultimately the Pacific Railway, making St. John the winter port of the shortest Pacific line on the V. The maratime Provinces of New Brunswick

VI. The local traffic will be remunerative, the proposed line passing through a comparatively well settled and prosperous district, especially gifted with abundant water power, with plentiful timber

taining a very large population.
VII. The lands granted by New Brunswick will immediately produce by sales, leases and timber licenses a revenue to the Companies apart from the traffic of the Railway.
VIII. It is estimated that the increased value of these lands will redeem the debentures, leave the Railway unencumbered in the hands of the Share-

holders, and at \$2.50 per acre pay for the cost o the Railway. IX. It is intended to import laborers to work upon the railway, to whom will be given free grants of land upon condition of settlement. X. It is also the intention of the Company to import and induce settlers in every possible way, by sales of lands at low rates and long credits, thus realizing profits from the lands as well as Railway.

X1. The Traffic, estimated from existing data and returns of other Railways under similar circums. stances, is as follows:-

Local Passenger Traffic, \$149,000 per annum. Through Passenger Traffic, 86,400 do. Mails and Sundries, 20,000 Through Freight from Canada, Return Freight to Canada, 100,000 Traffic in Lumber, In Farm Produce, Supplies from St. John, St. Stephen, &c., \$789,400 Total Receipts,

Or \$3,400 per mile of Railway. XII. The working expenses are estimated at 60 per cent. of the above sum, or \$473,640, thus leavwill be required to pay the interest of the Debentures, being a balance of \$100,000 to the shareholders. An addition of only \$44,000 to this amount, to be derived from Land and Timber Revenues, would give the shareholders a dividend of ix per cent. The average nett earnings on all the dian Railways being about \$2,000 per mile, ther is no exaggeration in the above account. XIII. Every Shareholder being a proprietor and a partner in the undertaking, has a right and interest in the land, to the extent of his shares, and cannot suffer loss. The necessary share capital being \$10,000 per mile, and the grant of lands 10,-000 acres per mile, every dollar paid in is represented by an acre of land.

THE TRUE THEORY OF CURE.

RADWAY'S SARSAPARILLIAN RESOLVENT supplies the system, through the blood, urine, sweat, and structure-making constituents with Tissue making, Flesh making, Heat or Calorio and Fat making elements.

All of its constituents are nourishing, purifying, and strengthening. It Repairs, Heals, Resolves, and drives out of the body the products of Decay and Corruption. CONSUMPTION, WHITE SWELLING, DROPSY, SYPHILIS, CANCERS, TUMORS, &c., are all of a serroulous diathesis, and as such, are within the curative ecrofulcus diathesis, and as such, are within the curative range of the SARSAFARILLIAN RESOLVENT! 1. That Scrofula, by whatever name designated, is the result of deposits from the blood, induced or caused by Chronic infiamation. That those deposits take place when the blood is poor, weak, watery, and incapable of when the blood is poor, weak, watery, and incapable of helding in solution its proper constituents, or from the presence of some virus or poison in the blood, as Mercury, Calomel, Corrosive Sublimate, which is the Corrosive Chloride of Mercury or other agents, given in medicines and which enter largely in the common advertised Sarsaparillas, NOT ABSORBED OR CHANGED FROM THEIR NATURAL CONDITION.

2. That unless the repairs or nutriments are greater than the wastes, that decomposition and decay will supervene, and the powers of life become exhausted. 3. That the dying body cannot be sustained on any treatment of medication that exhausts the system, or fails He will guarantee to give satisfaction to his the vi'al forces are preserved, and on which the growth patrons both in the quality and price of his Goods of the body depends. authorized to say that a Steamer will be despatched for our port (in addition to the sailings now advertised) once every month during the Summer season, and this number will be increased according to the requirements of our trade.

From GLASGOW, Saturday, 18th March; From LONDON, Monday, 27th March; From GLASGOW, Tuesday, 4th April; From GLASGOW, Tuesday, 4th April; From LIVERPOOL, Saturday, 8th April; This School, under its present Principal, has the lessons in CHEMISTRY and NATURE.

The second in health.

As we have shown the principle on which disease is formed, as well as the only sensible theory of cure, we claim that the range of cure of the Sarsaparlian Resolvent is unlimited, and that every disease that is of a Chronic, Scrofulous or Organic Diathesis, is, properly within its special range. Thanking the public for the liberal patronage in the past, he still trusts by scrict attention to business, keeping his prices down, and assuring a good fit, to deserve a continuance of the same.

MICHAEL QUINN.

Woodstock, Jan 20, 1869—4

Woodstock, Jan 20, 1869—4

THE GREAT SECRET OF CURE in this Medicine consists in the selection of ingredients containing curative and nourishing properties that supply the blood and general system with such constituents which, in a condition of disease and depravity, it is deficient of, together with the combination of the several ingredients that form the SARSAPARILLIAN RESOLVENT. Cutting Neatly and Promptly done.

atmospheric sir, life would become extinct. So, when

enables the blood to held in solution all its natural con-DAILY CHANGES
take place, for as the Sarsaparillian increases the strength
and purity of the blood, all deposits are diminished, and
