SOMETHING NEW AND GOOD.

NEW IRON FRAME BUCKEYE Mowing Machine! Is the best adapted for the Farmers of New Brunswick, over all other DRY

Machines in the Market. Bullard's Improved HAY TEDDER; Whitcomb's Horse HAY RAKE, with Brown's Improvement, and the Celebrated Bay State Horse Rake, Remodeled and Improved for 1872.

I wish to call the attention of farmers who contemplate buying all or any of the above machines, to the fact that I have been in the business of buying and selling Mowing Machines and Horse Rakes for the last two years, and having spent some four weeks time in visiting the different Machine Shops and Agricultural Warehouses in several States, I have selected the above as the Machines which I consider the best adapted to the farms THE subscriber, while in Europe, made very extensive purchases of CHOICE GOODS, which have now arrived, and to which he would particularly call the attention of the public particularly call the attention of

I have had the agency of several other leading Machines now in market urged upon me, and have been offered more favorable terms than I get on the above, but as I intend Irish Poplins, Japanese do., Black and Colored to make this a business for a number of years, I am bound to sell the best machinery in Alpaceas, Serges Satteens, Repps, Challies, Taccoes, Barages, Iron Grenadines, French Ging- do I want my Agents to do so, for there are other good Machines in the market. But hams and Cambrics, Prints, Muslins, Brilliants, there is a class of Machines in the market that will and are now being offered to the farmers, and warranted to be good Machines, which are not, and the farmers who buy them at any price, even as low as thirty dollars, will be cheated,—Machines, some of HEMP & WOOL CARPETINGS, which are second-handed, having been used and returned to the Agents, because they did not prove what they were recommended to be. If Agents offer for sale Machines RUGS MATS for the second s two or three years old, it is a very good sign that the manufacturers have failed or stop ped manufacturing for some cause. Consequently when any part of the machines break they have got to be laid aside and new ones bought. But the farmer who buys a standard Machine or Rake can get extra parts at any time, at small expense, and make his Machine last a great many years. So, brother farmers, don't buy a cheap Machine because you can get it cheap, but buy one that you and everybody else knows is a standard

no, Lama, French Twill, Challie, Machine If you want a Machine or Rake, buy it now, and not wait until the day you want to begin having (which is always one week too late with most farmers), and then perhaps have to wait another week before you can get a Machine. Black and Colored Broad Cloths, Cassimeres, Doeskins, Tweeds, Diagonals, Silk Mixtures, &c. My Machines and Rakes are all warranted to give perfect satisfaction, and a fair trial of each will be allowed, and will be sold on satisfactory terms. Apply to me or any of my Agents for pamphlets setting forth the merits, and describing the Machine.
