M. McGUIRK. Woodstock, June 27, 1872. Mowing Machines.

BEFORE purchasing a MOWER, farmers will not loose any thing by calling at the store of CONNELL BROS. and examining the prettiest, and the greatest favorite with farmers who cut much Graham Flour, Oat Meal

which is so necessary in stoney land.

The rapid movement of the knives; The perfect centre draught;

At the request of some farmers, last year, I competed my Improved Buckeye against "One of the most popular, and acknowledged to be leading machines in the United States," on the farm of Thos. Simonson, Esq., which resulted in my favor, and the sale of three improved Buckeyes.

Take motice of the Machine and price. Full particulars given inside the store of CONNELL BROS.
SAMUEL SMITH. Woodstock, June 27, 1872-26

NEW IRON FRAME BUCKEYE

Mowing Machine! WE have on hand a large stock of Black and Blue Bood Cloth; Black and Blue Doe. Is the best adapted for the Farmers of New Brunswick, over all other Machines in the Market.

> Bullard's Improved HAY TEDDER; Whitcomb's Horse HAY RAKE, with Brown's Improvement, and the Celebrated Bay State Horse Rake. Remodeled and Improved for 1872. I wish to call the attention of farmers who contemplate buying all or any of the above machines, to the fact that I have been in the business of buying and selling Mowing Machines and Horse Rakes for the last two years, and having spent some four weeks time in visiting the different Machine Shops and Agricultural Warehouses in several States, I have selected the above as the Machines which I consider the best adapted to the farms have selected the above as the Machines which I consider the best adapted to the farms have selected the above as the Machines which I consider the best adapted to the farms have selected the above as the Machines which I consider the best adapted to the farms have selected the above as the Machines which I consider the best adapted to the farms have selected the above as the Machines which I consider the best adapted to the farms have selected the above as the Machines which I consider the best adapted to the farms have selected the above as the Machines which I consider the best adapted to the farms have selected the above as the Machines which I consider the best adapted to the farms have selected the above as the Machines which I consider the best adapted to the farms have selected the above as the Machines which I consider the best adapted to the farms have selected the above as the Machines which I consider the best adapted to the farms have selected the above as the Machines which I consider the best adapted to the farms have selected the above as the Machines which I consider the best adapted to the farms have selected the above as the Machines which I consider the best adapted to the farms have selected the above as the Machines which I consider the best adapted to the farms have selected the above as the Machines which I consider the best adapted to the farms have selected the above as the Machines which I consider the best adapted to the farms have selected the above as the Machines which I consider the best adapted to the farms have a selected the above as the Machines whic

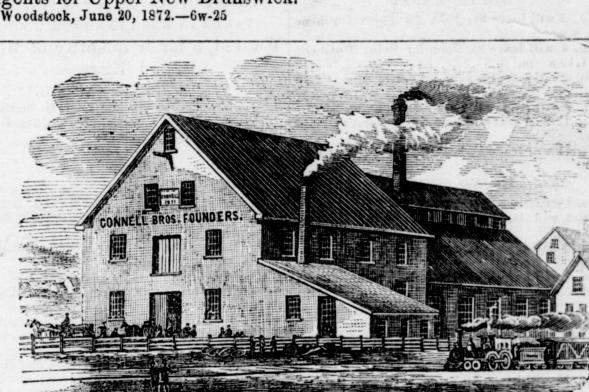

of Aroostook County and New Brunswick, and the Machines that will do the most and the best work, for a number of years, with the least expense, and the easiest for the team and man that uses them. I have had the agency of several other leading Machines now in market urged upon me, and have been offered more favorable terms than I get on the above, but as I intend to make this a business for a number of years, I am bound to sell the best machinery in to make this a business for a number of years, I am bound to sell the best machinery in the market. I do not wish to praise up my Machines by running down others, neither do I want my Agents to do so, for there are other good Machines in the market. But there is a class of Machines in the market that will and are now being offered to the farmers, and warranted to be good Machines, which are not, and the farmers who buy them at any price, even as low as thirty dollars, will be cheated,—Machines, some of which are second-handed, having been used and returned to the Agents, because they did not prove what they were recommended to be. If Agents offer for sale Machines two or three years old, it is a very good sign that the manufacturers have failed or stopped manufacturing for some cause. Consequently when any part of the machines break Clothing ped manufacturing for some cause. Consequently when any part of the machines break they have got to be laid aside and new ones bought. But the farmer who buys a standard Machine or Rake can get extra parts at any time, at small expense, and make his Machine last a great many years. So, brother farmers, don't buy a cheap Machine because you can get it cheap, but buy one that you and everybody else knows is a standard

If you want a Machine or Rake, buy it now, and not wait until the day you want to begin having (which is always one week too late with most farmers), and then perhaps

have to wait another week before you can get a Machine.

My Machines and Rakes are all warranted to give perfect satisfaction, and a fair trial of each will be allowed, and will be sold on satisfactory terms. Apply to me or any of my Agents for pamphlets setting forth the merits, and describing the Machine.

E. E. PARKHURST, Presque Isle, General Agent for Aroostook County and Upper New Brunswick. JAMES CARR and S. G. JONES Agents for Upper New Brunswick.
