DR. BAXTER'S CHALYBEATE.

An Iron Tonic for the Blood.

The efficacy of this Tonic is seen in its curative power over all forms
of Anemia or states of the system, characterized by palor and weakness,
a condition which lies at the foundation of a large majority of the ills of
life, and is referred to the state of the Blood.
Without iron the red corpuscles of the blood could not exist nor life be
supported. A substance which occupies such a place in the circulating
fluid of the body—that fluid which is the source of all nutriment and
growth, and the material from which all the secretions, however much
they may differ in properties and composition, are derived—cannot be
dispensed with. It is as necessary to life as the air we breathe, or the
water we drink.
The weak of all classes will find it to be the Tonic they require, and
every dyspeptic will receive benefit from its use.
