SPECIAL NOTICE.

OWING to the large sales, and having made special arrangements with the manufacturers for 1872, we are now prepared to sell the celebrated Chair Springs, (of which we have the wholesale agency for the Lower Provinces) at the cheap price of 75 cents per pair, singly, and can be made a special discount to Hotel Keepers and those wishing to furnish their houses with this excellent invention. Ease and comfort combined by the use of Blakes Patent Chair Springs, only 75 cents per pair. They make a Spring Oscillating or Rocking Chair, out of a Common Chair, and the most intolerable nuisance, rockers, is entirely dispensed with. These Springs fit any chair, and can be placed in position for use by a child, so simple are they in construction. They are made of the best Steel, and possess remarkable elasticity. They make a finish to the chair, are not the least in the way when applied, do not take any extra room, and each and every one that have used them are unanimous in their praise, for they make the Easiest Chair Ever Invented. The ladies, *one and all*, pronounce them unequalled as a Sewing Chair, they will last a life time, are easily adjusted to any chair, cannot get out of order, and are sure to come in general use, and people will discard all other "Rocking Chairs." For economy and comfort it is the most valuable invention of the age. Pedlars will find them a capital selling article.
