THE ILLUSTRATED Phrenological Journal Volume Fifty-six, 1873.

THE Science of Mind is the central point around which revolve the whole circle of sciences. It is the key to universal knowledge, and SELF-KNOWLEDGE is the key to the Science of Mind. Phrenology is the demonstrable basis of Mental Philosophy. It shows how the diversities of human character and capacity are related to the laws of the universe; harmonizes the human being with the Divine, "and justifies the way of God to man." DR. BAXTER'S CHALYBEATE.

THE remarkable sale, and the beneficial results to those who have used Dr. BAXTER I CHALYBEATE, during the short period it has been before the public, cre the best evi dences of its curative powers over diseased and disordered states of the human system. Its success is that it is a BLOOD FOOD, and that it contains an element which is necessary to the healthy condition of the blood, viz., IRON, for without Iron the blood would lose its Executor. vitality--IT WOULD DIE. The combination contained in the Chalybeate is suited to the weakest digestion, and being easily assimilated, works its curative power on the blood mass. When it is considered that disease is weakness, and that the weak and the weary aret hose who are seeking aid of the physician every day, does not common sense teach that what tends to strengthen such, tends to cure them; and I hold that it is the duty of the educated and honest physician, if he cannot reach all such in his private practice, to extend his usefulness by offering to the public a remedy, which years has proved to be of immense service as a curative agent in the treatment of disease. Its operation is in strict accordance with the laws of the human system. This preparation has stood the test of years in private practice, and it can therefore with confidence be recommended to the public. The days of bleeding, blistering, and mercury are gone by. It becomes all to husband their blood and their blood-making powers The battle of life will exhaust all soon enough. The weak, who are the great majority, will find it just such a Tonic as they require. What but a Tonic treatment would have rendered the kenefits experineed in the following cases?

JOHN BAXTER, M. R. C. S. E., Proprietor, St. John. FOR SALE BY W. T. BAIRD. Price, One Dollar per Bottle. TESTIMONIALS.

Dr. Baxter's Chalybeate in the Nervous Trembling and Debility of the man who would Reform and DR. BAXTER: Dear Sir, -- I feel it but justice due to you to testify to the virtue of your Chalybeate in strengthening my poor, weak. palpitating heart, and shattered nerves, after too freely indulging in that which steals away the brain and the legs as well.— When I began taking your medicine I was hardly able to navigate, and I felt that there was no cure for me. But, sir, your medicine restored my appetite, removed the trembling of my limbs, and gradually quieted my heart, which I thought would jump out of my mouth. Two bottles cured me. I am now as well as I ever was in my life—a staunch emperance man, and hope to continue so unto the end of my days. Long life to you, and the blessing of your sincere well-wisher. PATRICK FEENEY. St. John, N. B, May 1, 1872.

CHALYBEATE. O. A. Barberie, Esq., telegraph operator and station master at Penobsquis, writing for a further supply of Dr. Baxter's Chalybeate, says: "It has made a man of me again.— No person can tell the value of it in my case—debility, loss of appetite, palpitation of the heart and dizziness. It acts like magic. A great many persons who saw how I was before taking your medicine know how I am now, and have been convinced of its virtue. I consider the Chalybeate one of the greatest blessings, as a medicine, that has ever been offered to the public.
