man words lager beer signify stock beer, i. e. beer that has been stowed away. Estey, Charles The story, as told in Germany, is an old Gibson, Charles one and runs thus:—Many years ago a shoemaker near Bamburg sent his apprentice to get a bottle of Bamburg beer, Harper, Wm. G. which was sold at the place; but the boy Hanington, Danl. E. not knowing this, went to the city itself. On returning he met an acquaintance of Kennedy, Johanna his who told him that when he would Persons calling for any of the above will please come home the boss would whip him for say advertised. staying so long. The poor boy, who was so frightened at this, thought it better not to go home at all, but took his bottle, buried it under a tree, and ran away.-He went among the soldiers, where he time he became an officer. When one day his regiment was quartered in this little town, the officer thought it proper to pay a visit to his old boss, but not before he had got the bottle of beer which he had buried some years before under the tree. When he entered he said:

"Well, sir, here I bring you your bottle of Bamburg beer that you sent for."

The shoemaker not knowing what this meant, was told by the officer all about it. The bottle was opened, and the beer was The bottle was opened, and the beer was found to be of superior quality. When this fact was made known, some of the brewers built deep vaults, where they put their beer and called it after it had the assistance of his father-in-law,

Few persons understand fully the reason why wet clothes exert such a chilling influence. It is simply this: Water, when it evaporates, carries off an enormous amount of heat in what is called the latent form. One pound of water in vapor contains as much heat as nine or vapor contains as much heat as nine or ten pounds of liquid water, and all this heat must, of course, be taken from the body. If our clothes are moistened with three pounds of water; that is, if, by wetting, they are rendered three pounds heavier, these three pounds will, in drying, carry off as much heat as would raise three gallons of ice-cold water to the boiling point.
