## DR. BAXTER'S CHALYBEATE,

An Iron Tonic for the Blood.

## THE remarkable sale, and the beneficial results to those who have used Dr. BAXTER'S

CHALYBEATE, during the short period it has been before the public, is the best evi-

dence of its curative powers over disease and disorders of the human system. Its

success is that it is a BLOOD FOOD, and that it contains an element which is necessary

to the healthy life of the blood, viz. IRON, for without Iron the blood would lose its

vitality—it would die. The combination contained in the Chalybeate is suited to the

weakest digestion, and can, consequently, be taken up by the stomach, and, being easily

assimilated, works its curative power on the blood mass. When it is considered that dis-

ease is weakness, and that the weak wear—those who are seeking aid of the phy-

sician every day, does not common sense tend to cure them; and I hold that it is the

of the educated and honest physician, if he cannot reach all such in his private practice, to extend the area of usefulness of a

remedy, which years has proved to be of immense service as a curative agent in the treat-

ment of disease. Its operation is in strict accordance with the laws of the human sys-

tem. It does not profess to be a cure all, nor does it profess to root out, hunt out, or act

in a wonderful and mysterious way. This preparation has stood the test of years in private

practice, and with confidence be recommended to the public. The days of

bleeding, blistering, and mercury are gone by. It becomes all to husband their blood and

their blood making power. The battle of life will exhaust all soon enough. The weak,

who are the great majority, will find it just such a Tonic as they require. What but a

Tonic treatment would have rendered the benefits experienced in the following cases,

and is not such the rule everywhere, and not the exception.

TESTIMONIALS.

Dr. Baxter's Chalybeate in Combination with Cod Liver Oil in cases of threatened Consumption.

Dr. BAXTER: Dear Sir,—I feel it my duty to bear testimony to the efficacy of a remedy

which I used from about 14 months ago, and which is now given to the public. In

December 1870 I caught a severe cold, which settled in my limbs. I became extremely

weak, lost my appetite, and experienced great difficulty in breathing, and in 4 weeks

lost 27 lbs. of flesh. I was confined to my bed, and my friends considered my case hope-

less. My only treatment was your Chalybeate with Cod Liver Oil. I recovered rapidly

and have enjoyed good health ever since. It proves as efficacious with others as it did

with me, may I yet thank you for giving it to the public. Yours very truly,  
WM. B. MILES.

Dr. Baxter's Chalybeate in the general weakness which is the result of the wear and tear of life.

Dr. BAXTER: Dear Sir,—About three months ago I returned from the West, where I

had been engaged in the manufacture of cigars, with a system entirely exhausted, a weak

circulation, bad digestion, and general weakness. The great change of temperature

which I experienced here produced distress and weakness in my lungs. I felt the need

of a tonic and found it in your Chalybeate. After taking two bottles, with a small quan-

tity of Cod Liver Oil, I soon regained my former health, and am now as well as ever.

Yours, &c.
