**Mowing Machines.**  
BEFORE purchasing a MOWER, farmers will not lose any time by calling at the store of CONNELL BROS., and examining the prettiest and the greatest favorite with farmers who cut much hay. Examine its lightness of draught and ease on the horses' neck; the closeness of the finger guards, which is so necessary in mowing land. The rapid movement of the knives; The perfect cutting of the grass; The easy set for the driver; The compact folding of the cutter bar; The superior quality of the iron, Maltese Castings, Steel, and superior workmanship and style of finish. A small boy can manage it as well as a man. At the request of some farmers, last year, I completed my Improved Buckeye against "One of the most popular, and acknowledged to be leading machines in the United States," on the farm of Thos. Simonsen, Esq., which resulted in my favor, and the sale of three improved Buckeyes. Take notice of the Machine and price. Full particulars given inside the store of CONNELL BROS. SAMUEL SMITH.
