more vigorously than before. There was no mistaking the design now. The preacher looked at the man; he knew Crocks; 1, 1 and 1 gallon Preserve Pots; selfhim to be a hard, grinding man -stingy and merciless to the poor. He continued his address :- " May the Lord bless all those of you Decorated Bedsteads, all widths, ever seen in who have done your duty, who have honored Fredericton; Feather Dusters; him with your substance, who have been kind to the poor, and-" Pausing and looking the intruder straight in the eye, and pointing to him with his finger : " May his curse rest on those who have cheated the Lord and ground the poor under their heels. ### Essential Qualifications of a Successful Farmer.

Few persons imagine how much knowledge and especially what varied knowledge it is necessary a man should possess to be a sucscience which is not intimately connected with | Choice and Oromocto, from England. Agriculture. It is true a farmer may be the most ignorant of men, and yet obtain good profits out of his holding; but this success is due to incidental circumstances beyond his control, and from which he profits ignorantly. Experience goes a long way, but study is neof February next, between the hours of 12 cessary, especially study during youth. A theoretical farmer, without any practice or experience whatever, will probably loose his that tract of land situate in the Parish of Bright. money; but a man who has experience and also knowledge drawn from books, will, other things being equal, make \$250, where another having experience only, without the assistant bundled and twenty-five (625) acres, on the Eastern side of the River St. John, granted to one Lawrence Wilsey, in the grant to William Turner and others, and the ratis of Bright on, in the County of Carleton, known as lots 43 and 44, in the Eastern division of what is called the Wakefield grant, containining six hundred and twenty-five (625) acres, on the Eastern side of the River St. John, granted to one Lawrence Wilsey, in the grant to William Turner and others, and the ratis of Bright on, in the County of Carleton, known as lots 43 and 44, in the Eastern division of what is called the Wakefield grant, containining six hundred and twenty-five (625) acres, on the Eastern side of the River St. John, granted to one Lawrence Wilsey, in the grant to William Turner and others, and the ratis of Bright on, in the County of Carleton, known as lots 43 and 44, in the Eastern division of what is called the Wakefield grant, containining six hundred and twenty-five (625) acres, on the Eastern side of the River St. John, granted to one Lawrence Wilsey, in the grant to William Turner and others, and the ratio of Industrial Indus ance and hints given by the study of various together with all buildings and improvements subjects and sciences, will only make \$150. Agriculture, or rather farming, is generally considered a matter of luck and chance; all William Connell. faults and errors are laid to the weather, but the fact is, that agriculture is a very exact science.—Liebig.

### David Crocket.

ington, and pausing a moment before a particularly hideous monkey, exclaimed, "What a resemblance to the Hon. Mr. ---!" The words were scarcely spoken, when he turned, and to his utter astonishment, saw standing at his side the very man whom he complimented. "I beg your pardon," said the gallant Colonel, "I would not have made the remark had I known you were near me; and I am ready to make the most humble apology for my unpardonable rudeness, but"-looking first at the insulted member of Congress, whose face was anything but lovely, and then at the animal he had compared to him-"hang me if I can tell whether I ought to Hugh Hay's, Glasgow House, where they will find a general supply of apologize to you or the monkey."

### Make a Note of This.

If any man speaks ill of thee, says Epicte- GLASSWARE AND CROCKERY, tus, consider whether he hath truth on his side, and if so, reform thyself, that his censures may not affect thee. When Alexander was told that the very boys laughed at his singing, he said, "Ah then I must learn to sing better." Plato, being told that he had many enemies who spoke ill of him, said-It is no matter; I will live so that none will believe them. Hearing at another time that an intimate friend of his had spoken disparagingly of him he said-" I am sure he would | tinuance of their patronage. not do it if he had not some reason for it." This is the surest as well as the noblest way of drawing the sting of reproach and the true method of preparing a man for the great and only relief against the pains of calumny.

Mrs. Partington says: "For my part, I can't deceive what on airth eddication is comin' to. When I was young, if a gal only prices, Cash. "One fountain there is," says Miss Bremer, "whose deepening vein has just begun to throw its silver drops among mankind-a fountain which will allay the thirst of millions, and will give to those who drink from it peace and joy. It is knowledge-the fountain of intellectual cultivation, which gives health to mankind, makes clear the vision, brings joy to man's life, and breathes over his soul's destiny a deep repose. Go and drink therefrom, thou whom fortune has not favored. and thou wilt find thyself rich. Thou mayst go forth in the world and find thyself everywhere at home; thy friends are everywhere around thee; nature, heaven, antiquity, are purposes.

### CURE of BRONCHITIS.

J. C. CHAMBERLAIN, Esq.—This is to certify that about three years ago I became afflicted with Bronchitis, which lasted about eighteen months.— form her former customers, and the public, that was so afflicted for the want of breath that it was very difficult for me to speak, and in the night time frequently throwing the clothes off and raising in the bed to keep from strangling. I tried three of Shoshonees Remedy. I bought a bottle and took it, and when it was about finished I began to feel a little better. I continued to use it until I had taken three bottles, when, to my satisfaction, I found that was as well as ever I had been previous to my lness, and have been so ever since.

That the National Life Insurance Company of the United States of America is the most popular company in this country is evinced by the fact that in the first twenty months of its existence it received about 12,000 APPLICATIONS and issued 10,000 POLICIES, a much larger number than

was ever issued at the same period of its existence

by any other life Insurance Company in the world. That it is the most secure company is proven by its Capital of \$1,000,000. That it is henestly, correctly, and scientifically managed is guaranteed by the character and skill of its owners and managers, who, in addition to their integrity and ability, are influenced by pecuniary interests. Its rates of premium are as low as is consistent with entire safety. Its plan is entirely free from any complications gf notes, interest, &c., or uncertainties and disappointments of dividends, &c. Its contracts are definite, clear, and impossible to be misunderstood or missepresented. Its policies contain all of the promises made by the company, and are exceedingly liberal.
