I am not much acquainted with the expenses of running a railway, but it seems to my mind quite clear that the same number of station hands, section men, conductors, engineers, &c., would do the work of 1871 as tf 1870; so by deducting, say \$1000, from the \$4,000 increased earnings of 1871, for extra rolling stock, &c., there would be left a sum of \$3,000, swelling the nett earnings of the Branch to \$5,200 (including the \$2,200) Transient Advertisements should be accomwhich Mr. Osborn could afford to pay in 1870). And there is every reason to expect that the earnings will go on increasing year by year. The writer has been informed by experienced Railway gentlemen that the Branch should, and no doubt would shortly,

pay \$1000 per mile per annum. The Councillors (in view of the fact that The Garleton Sentinel. the purchaser of the Town stock could, by paying the mortgages and Bond debt, entirely control the Branch) have, I think, acted wisely in deferring, for the present, selling their stock: because while they hold it they have the power of negotiating with the two con- Brick Building, up stairs. tending parties (who are already largely interested as Bond holders and Mortgagees) for such terms as may yield to the rate-payers of the Town (certainly the most entitled to the benefits) a portion of the profits of the un-
