In Plans and specifications may be seen at James December 1870 I caught a severe cold, which settled in my limbs. I became extremely weak, lost my appetite, and experienced great difficulty in breathing, and in 4 weeks lost 27 lbs. of flesh. I was confined to my bed, and my friends considered my case hoperact. BAXTER: Dear Sir, -About three months ago I returned from the West, where I had been engaged in the manufacture of cigars, with a system entirely exhausted, a weak circulation, bad digestion, and general weakness. The great change of temperature which I experienced here produced distress and weakness in my lungs. I felt the need of a tonic and found it in your Chalybeate After taking two bottles, with a small quantity of Cod Liver Oil, I soon regained my former health, and am now as well as ever.
