Communicated.

FOR THE CARLETON SENTINEL. Mr. Epiron,-In your issue of the 22nd instant appears an abstract of the Report of the School Trustees for the Town of Woodstock, with the Auditors Report upon the Accounts, showing that eight Schools have been in operation during the past year, with an attendance of 311 pupils enrolled upon the Registers; and that the whole expenditure, exclusive of the Teachers' Government The Garleton Sentinel. allowance, amounts to \$4,167.22, or about \$13.40 per pupil. A large proportion of the expenditure, however, appears to have been for school buildings, repairs and furniture .- | Deducting the amount of these items, we Brick Building, up stairs have a cost per pupil of \$6.47. The Trustees this year ask for an assessment of \$2800, and permission to issue debentures for \$1200, the interest upon which will be about \$96; this, with the proportion of the County school tax levied upon our Town, will bring the average cost per pupil, the present year, pupils to be the same as last year. This is data of the several Parishes: rather an expensive operation for our Tov but then "the more cost the greater hono Now let us glance at the educational fairs of this Town in 1871, the year ne

preceding the introduction of the present f (?) school act. The present Board of Trustees were pointed in December of that year, and i mediately commenced to prepare for ! change in our school system about to be augurated. With this view they appoint a committee of their body to visit the scho of the Town and report thereon.

This committee found in operation with the limits of the Town eleven schools, inclu ing the Grammar and the Catholic school having an enrolled attendance of 510 pup and that the amount of compensation for the year from tuition fees and other sources, exclusive of the Teachers' Government pay, a was \$1700, being at the rate of \$3.27 per pu- 1 pil; this sum included rent of school rooms, cost of fuel, and all incidentals.

The facts shown by the above comparison speak for themselves. Comment is unnecessary. This beautiful system of education is rather expensive, but then it is "non-sectarian," and on this account entitled to the cordial support of all liberal minded men. It takes charge of the education of about threefifths of the children of our Town, and compels those who cannot appreciate its beauties and who in consequence prefer to educate their children in their own way, and who are providing for the education of the remaining two-fifths of the pupils of the Town, to pay pretty smartly also towards the support of this most extravagant educational system .-But then it is "non-sectarian," hence its real

Yours, respectfully, JUSTICE.

Woodstock, March 24, 1873. FOR THE CARLETON SENTINEL.

MR. EDITOR, -I observe in your last issue an explanation of Mr. Beckwith's bill, in the Assembly, to amend the N. B. Railway Co. Act. I am led to ask does Mr. Beckwith the Municipality should yield to the Co.'s wishes, could it not, and would it not, with equal propriety, after receiving the \$100,000, bring in a bill before the House asking to be Northampton; and of Deists 9, all being relieved altogether from the contract entered in Woodstock parish. It will thus be it would! I cannot believe the Government, nominations have greatly the largest strong as it appears to be, will allow such a numbers, the F. C. Baptists being nearly crease of trade for Dominion, 18.14 per down to date as we could desire. It is same was introduced and read the second bill to pass. Will Mr. White cling to a seat three times as numerous as any other still if such things are allowed? Let not Mr. White come back to the people of this one denomination, and the two Baptist County a member of a government of such bodies numbering over 10,000, or over

double dealing, if this bill is carried. last issue upon the same subject, in which ated but generally being really Wesleyroad with rolling stock, further than is I cessary for the completion of the road, as is rumored that after the road is built a the land grants obtained they will abandon altogether. Why is it that they have contracted for hemlock and spruce sleepers for the road when cedar is so plentiful? Further comment is unnecessary. There is not a shadow of doubt that they do not intend to work the road after it is built.

Middle Simonds, March 24, 1873.

FOR THE CARLETON SENTINFL. MR. EDITOR,-I see by "Looker on's voice he thinks it high time for the people of New Brunswick (if they are of the stamp he thinks them) to speak in condemnation of the wonderful traud the government has per petrated on the County with the Riviere du Loup Railway Co. I judge "Looker on supposes himself capable of sustaining his arguments by facts and figures, which I very much doubt, and beg to differ with him and take the liberty to inform him we have had too many men, such as he calls himself. arrived when we want men of brains and men such as Gibson and others have shown us they have. And their motto is push along, keep moving, when "Looker on" is only endeavoring to find fault and make mountains out of pebbles. He speaks of our lands being worth \$2 per acre, and the government giving ter thousand acres per mile, and allowing the Company to clear \$10,000 per mile and have the land to good. He cannot be aware the government gives the land away and makes a road to it and pays him a certain sum if he will clear and live on it : so where is there a chance for the Riviere du Loup R. R. Co. to make more out of the lands than the government? "I cannot see it" so, according to "Looker on's" argument. If he is so wonderous wise, to know the railroad lands are worth \$2 per acre, and can show the R. R. Co. how to realise it, he will get \$10,-000 per mile for his information, and build a road for himself up Gin Creek and Central

Now, Mr. Editor, if our government had been made up out of such material as" Looker on" is composed of, and ideas of his set in motion by running a line up Gin Creek, &c., to open up the wilderness lands, to encourage emigration, what would the whole country say f I for one would say it had more money than brains, to prepare for a century ahead, when the wants of the settlers, who made the country by labor, and not by looking on. demand an outlet for their labor they so Sweden, Norway, Denmark 2, 1 each in richly deserve, and now in a fair way of be- Wicklow and Peel; born at sea 2, Kent ing realised through the money and influence and Brighton 1 each, and 5 not given. of Gibson and associates, who deserve and get the hearty thanks of all men, who have despotic government; I can answer for it. we have not; or Gibson & Co., would not in the sister Provinces, and 17,160 of premium, given to each subscriber, being allow his letter to appear in the press-if he New Brunswick birth. and the company run the government. I trust "Looker on" will soon see we have a liberal government. If he has no shoes he can go barefoot, and Gibson & Co. will not give him a pair, so long as he continues to do no more than pass remarks and "look on."

St. Leonards, V. C., March 20, 1873.

After a short discussion on the form of in-

dollars be granted to His Excellency, in aid of the great roads, for the current year.

Mr. Gough said he thought the Secretary would not have gone into the question of sapply without mentioning something about the policy inteded to be pursued by the Government in relation to the extension of railways in this province; in relation to the discribution of the great and bye-road monies, and their policy relating to immigration. As there was nothing foreshadowed in the Speech, no thought the Provincial Secretary would even now foreshadow the policy of the Government for the present year. Heretofore all of the money granted for the use of interest Roads was wasted by the loose manner of distribution and poor legislation. Heretofore the Government adopted only the province the Government the annual of distribution and poor legislation. Heretofore the Government adopted only the province the Government adopted only the province the Government the great the annual of distribution and poor legislation. Heretofore the Government adopted only the province the Government the great the guestion of the great and by first and the course he had tongth proper to pursue will be found on the lable of every bottle of I.
