call attention to some facts, which go far to show the superiority and certainty of those trees over all others, and the folly of buying American Trees, or trees raised by parties without experience or knowledge of the needs of our extreme climate. Orchards made from these trees are noted for early, certain, and heavy crops, and quality of fruit which brings the highest prices in all markets where sent. The superiority of the orchards to be found at Woodstock, over all others of their size and age, planted from these nurseries, and that no such successful orchards can be found of the thousands of imported trees which have been planted here are sufficient testimony in favor of these trees. Five hundred thousand trees are now growing in these nurseries. CALDWELL BROTHERS, and their Agents, are travelling and taking orders for these
