A new grove of colossal redwood trees has been discovered in California, one of which eclipses all that have been discovered on the Pacific coast. Its circumference as high as a man can reach, standing and passing a tape line around, is only a few inches less than 150 feet, which is beyond the measurement of any tree in the Calaveras grove. The height is estimated at 160 feet, and a part of the top lying on the ground is over 100 feet in length.

A proposition to introduce compulsory vaccination in Montreal was vigorously opposed by the French Canadians on Monday night, who behaved in a rirtous manner before the City Council.

The Wesleyans, (says a correspondent of the London World), have recently developed very striking "go ahead" ideas. They are making their chapels so like our churches tween them. At Abingdon they have built a chapel, on the exterior of which are several small crosses similar to those which we shoulder blade. Different preparations were shoulder blade. Different preparations were see on every new church nowadays. There is a regular organ-loft in the chancel, this end of the edifice being, I am informed, raised above the floor of the nave; there either JOSEPH YOUNG. is or will be a surpliced choir (!); a fine organ will be another note-worthy feature of the chapel; and mirabile dictu! outside the building, near one of the doors, there is, my informant adds, a niche for the reception of a statuette, such as may be seen in old Engineers. J. A. STEEVES & SON. Woodstock, May 14, 1875. Gilbert's Lane Woollen Mill & Dye Works,

> ST. JOHN, N. B. WILLIS & LAW,

DYERS AND FRENCH CLEANERS It is a well-known fact that all classes of goods get soiled and faded before the material is half worn, and only require cleaning or dyeing to make them look like new.

Try the GILBERT'S LANE DYE WORKS where every description of Dyeing and Cleaning is executed on short time, in the best manner, and at moderate prices. We have imported three new hands from some of the largest dye works in the old country, men of a great many years experience, and using only the best of Dye Stuffs, we feel confident that we can turn out goods of all kinds, Cleaned, Dyed and Finished in a style that cannot be surpassed.

Special attention given to Black Goods, Damasks, and Morecens.

Gentlemen's Coats, Vests and Pants Cleaned or Dyed without ripping or injury to the linings.

Kid Gloves Cleaned or Dyed. Carpets Cleaned by a new process without beating. All orders left with the Agent, J. H. GOLDEN, Connell's Brick Block, will be promptly ttended to.

A roof may be covered with a very cheen shingle, and by application of this slate be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better, and lasting longer than new shingles without the slate, for one-third the cost of re-shingding. This Paint is practically are-proof against sparks or flying embers, and for tin and iron has no exact, as it expands by heat, contracts by contracts. Roofser ared with Tar Sheathing Felt can be made rator-light at a small expense. The Slate Paint is Two to three gallons will cover 100 square feat of shingle roof, or 400 to 600 square feet of tin, iron, felt, matched-boards, or any smooth surface; although the Paint has a heavy body it is easily applied with a brush, and neither cracks in winter, nor runs in summer. On decayed shingles it fills up the holes and pores, and gives a new substantial roof that lasts for years.

Curled or warped shingles it brings to their places, and keeps them there. It fills up all holes in Felt roofs, stops the leaks, and although a slew dryer rain will not affect it a few hours after applying. As nearly all Paints that are black contain tar, he sure you obtain our genuine article which (for shingle roofs) is CHOCOLATE COLOR, when first applied, changing in about a month to a uniform slate color, and is to all intents and purposes slate. On TIN ROOFS our red color is usually preferred, one coat being equal to five of any ordinary Paint. For BRICK WALLS our bright red is the only reliable slate Paint ever introduced that will effectually prevent dampness from penetrating and discoloring the plaster. Our

is on many of the finest residences in the country. is equally adapted for inside or outside work, fences, barns, etc., readily applied by any one, has been practically tested for 20 years, and we guarantee satisfaction in both quality and price.
