FOR THE CARLETON SENTINEL.

CURE FOR DIPTHERIA. MR. EDITOR, -In reading your paper the other day I saw a statement that the diptheria was taking many away in your Province; therefore I wish to inform the people through your paper of a remedy which has proved effectual here. I don't know of one that has died that has made the application. We use alcohol for a gargle. It in the first stages, reduce with water and gargle every half hour: if the disease is well advanced and the throat badly coated, gargle with it about full strength and bathe outside.

Yours, respectfully, D. G. COOK. Presque Isle, Me., Dec. 6, 1875.

TERMS OF THE SENTINEL.

The Garleton Sentinel. SATURDAY, DECEMBER 11, 1875.

Brick Building, up stairs

Ontario manufacturers are determined, if possible, to induce the Government of the Dominion to apply a higher tariff Thomson had continued in a philippic couchof the Dominion to apply a higher taring Thomson had continued in a philippic couch-than at present imposed on imports into ed in the most offensive invective, and, he in a verdict of acquittal, and we are thus not be say that your sentence will not be so Canada. At a meeting of manufactur- thought, that the feelings of any man would reminded of our view of the case last week. py to say that your sentence will not be so ers, held lately at Teronto, the following, among other resolutions, were adopted:

| Applied to him; | He hoped that upon delib-

Be it therefore resolved : That in view of the fact that no duties are imposed on Amer- tirely unprovoked. test against the interests of our farmers, mil- lesk writes for about two minutes. lers and other producers being sacrificed in markets untaxed as long as a heavy toll of seeking a market in the United States. Further, whereas for many years past it has been the settled policy of the Government of Canada to adjust our Customs tariff with reference to the necessity of collecting of contempt of court in calling one of the a sufficient revenue to meet the obligations

of the country : It is the opinion of this meeting, having due regard to the fluctuations in values in the various countries wherefrom we draw our importations, and with the desire to foster direct trade with Great Britain :

That upon the classes of articles which are now manufactured in the Dominion, such revenue will be best secured by increasing by two and one half per cent. the rates now levied on all such classes as are imported from Great Britain or Ireland, and in respect countries, no less rate of duty shall be levied than is imposed by the said foreign countries. if of the manufacture or production of this

That the Dominion Government be peti tioned to enforce the strictest possible administration of the revenue laws, adopting the most stringent regulations, abolishing altogether, or allowing in only a few ano very clear cases, the practice of suffering en. tries to be amended, which encourages the making of attempts to defraud the revenue with but little risk in case of failure-reducing materially the number of small ports of entry, and making the law itself more precise, if necessary, in order that fraud and undervaluation at the custom houses, now believed to be carried on to a large extent. may be effectually stopped—as a measure of justice to the honest importer as well as to

While it is thus proposed to increase the duties, by $2\frac{1}{2}$ per cent., on goods imported from Britain and, in the case of goods imported from the United States and other foreign countries, to adopt a retaliatory policy indeed, by bringing the duties up to the rate imposed by such foreign countries on Canadian goods. The United States tariff is an anomaly

as contrasted with that of Canada. A noted in the above resolutions, products of the soil and other natural productions generally are admitted from the United States into Canada free, while the lik productions going into the United States have to pay duty from ten to twenty per cent, ad valorem, and in some cases : specific daty much higher than those quoted. Of this class of goods those imported into Canada most largely are flour and meal, coal, Indian corn coal and wool, these lower Provinces are mainly dependent, unfortunately, upor the Western Provinces or the Unite States, from one of which we must im port. So that, really, we are not in position to sympathize with the people of Ontario, who are rivals with the Unit ed States for the sale of flour, meal and grain, and not buyers as are we. It is: selfish and yet very natural consideration with our people the fact that while there appears to be no difficulty in finding market for our own surplus productions, not withstanding the high tariff they meet on to increase their price to us as consum-

As regards manufactured articles, the broad question of protection and free

seems beyond dispute. The article of kerosene is subject to a duty of 15 cents per gallon, or more than a hundred per per gallon, or more than a hundred per gallon, or more than a hundred per gallon, or more than a hundred per than a hundred per gallon, or more cent. on the cost. The result is that an invasion of the customs law, so far as this article is concerned, is encouraged:

> A FEW WORDS TO FEEBLE AND DELICATE WOMEN.

By R. V. Pierce, M. D., of the World's Di-People's Common Sense Medical Adviser,

Knowing that you are subject to to a great smount of suffering, that delicacy on your part has a strong tendency to prolong it, and the longer it is neglected the more you have to endure, and the more difficult of curyour case becomes, I, as a physician, who am daily consuited by scores of your sex, desire to say to you, that I am constantly meeting with those who have been treated for their ailments for months without being benefitted in the least, until they have become perfectdiscouraged and have almost made up heir mind never to take another dose of medicine, or to be tortured by any further treatment. They had rather die and have their sufferings ended than to live and suffer as they have. They say they are worn out by suffering, and are only made worse by reatment. Of anything more discouraging we certainly cannot conceive, and were there no more successful mode of treating such difficulties than that, the principles of which teach the reducing and depleting of the vital forces of the system, when the indications lictate a treatment dir-ctly the reverse of the one adopted for them, their case would be deplorable indeed. But, lady sufferers. of treatment for you; one more in harmony with the laws and requirements of your system. A harsh, irritating, caustic treatment and strong medicines will never cure you .-If you would use rational means, such a common-sense should dictate to every intelligent lady, take such medicines as embody the very best invigorating tonics and nervines, compounded with special reference t your delicate system. Such a happy con bination you will find in my Favorite Pre cription, which has received the highest raise from thousands of your sex. Those languid, tir-some sensations, cau-ing you t feel scarcely able to be on your feet or cend a flight of stairs: that continual drain that is sapping from your system all you former elasticity, and driving the bloom from your cheeks; that continual strain upor your vital forces that renders you irritable and fretful-may all be overcome and sub lued by a persevering use of that marvelous remedy. Irregularities and obstructions to the proper working of your system are re-lieved by this mild and safe means, whil periodical pains, the existence of which is sure indication of serious disease that shoul

A PROFITABLE INVESTMENT .- For once th liplomacy of the British Government ha shot ahead of the other Governments of Ed rope.
