SMITHFIELD.

J. C. CHAMBERLAIN, ESQ.—This is to certify that about three years ago I became afflicted with Bronchitis, which lasted about eighteen months. I was so afflicted for the want of breath that it was very difficult for me to speak, and in the night time frequently throwing the clothes off and raising in the bed to keep from strangling. I tried three of the most eminent physicians in the County of North-umberland for about a year without receiving any benefit. In fact I continued getting worse all the time. At last I was advised to try the Great Shoshonees Remedy. I bought a bottle and took it, and when it was about finished I began to feel a little better. I continued to use it until I had taken three bottles, when, to my satisfaction, I found that I was as well as ever I had been previous to my illness, and have been so eyer since.

This remedy has been faithfully tested and found to be an almost infallible cure for the above named diseases. Its success has been so universal that the Proprietor guarantees a cure to those who will use his medicine, or in case of failure to refund the money paid. Since it was first introduced he has received many thousands of testimonials, proving its efficacy for the cure of the awful diseases it is recommended for.—
The Pile and Humor cure is entirely vegetable in its composition, and can be used in perfect safety in all cases. There is no danger of its desiring the humor in as it cares on the surface driving the humor in, as it cures on the surface, and the patient's bodily health continually im-proves while under his treatment.

A roof may be covered with a very cheap shingle, and by application of this slate be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better, and lasting longer than new shingles without the slate, for one-third the cost of re-shingling. This Paint is practically fire-proof sgainst sparks or flying embers, and for tin and iron has no equal, as it expands by heat, contracts by cold, and will not corrode in the most exposed places. Roofs covered with Tar Sheathing Felt can be made water-tight at a small expense. The Slate Paint is EXTREMELY CHEAP! Two to three gallons will cover 100 square feet of shingle roof, or 400 to 600 square feet of tin, iron, felt, atched-boards, or any smooth surface; although the Paint has a heavy body it is easily applied with a brush, and neither cracks in winter, nor runs in summer. On decayed shingles it fills up the holes and pores, and gives a new substantial roof that lasts for years.

Ourled or warped shingles it brings to their places, and keeps them there. It fills up all holes in Felt roofs, stops the leaks, and although a slow dryer rain will not affect it a few hours after applying. As nearly all Paints that are black contain tar, be sure you obtain our genuine article which (for shingle roofs) is CHOCOLATE COLOR. when first applied, changing in about a month to a uniform slate color, and is to all intents and purposed TIN ROOFS our red color is usually preferred, one coat being equal to five of any ordinary Paint. For BRICK WALLS our bright red is the only reliable slate Paint ever introduced that will effectually prevent dampness from penetrating and discoloring the plaster.
