The Moneton tannery, which was recently rebuilt at a heavy cost, was destroyed by fire on Thursday last. No particulars have yet been received. The tannery was insured for \$15,000—divided between the Imperial Etna, Hartford and British America offices. The tannery was owned by Hon. E. B. Chandler, Mr. A. E. Killam (bridge builder), Mr. McKenzie and Mr. McCann. Mr. Killam is said to have been the principal shareholder. The tannery was worth over \$30,000.

According to a statement in a Mexican paper, it appears that the highest point in the world where railroads are now in operation is at Apizaco, on the Vera Cruz and Mexico railway, the precise height of which above the level of the sea, is 7,478 feet.—The next highest is on the great Central Pacific line, in the Nevada range, which is thing is at Arequipa, an important city in Peru, 7,000 feet above the sea level; and, under the Peruvian railway system, the work is to be continued until it reaches double that altitude, namely, at the ancient capital of Cuzco.

colds and all pulmonary disorders. Dr. Wilson's Pulmonary Cherry Balsam, dilli-gently used, will be found to be the most efficient means of immediately banishing coughs or lung complaints in their worst form. Whenever the system is predisposed to weakness of the chest, this Balsam will be found sure to eradicate the seats of future mischief in the lungs. Asthma, bronchitis, chronic cough, &c., all disappear before the successful employment of Dr. Wilson's Baisam, which in the most obstinate cases only require a moderate amount of time and fair attention.

The beauty of Dr. Wilson's Anti-bilious and Preserving Pills is, they do their work without pain. They gently move the bowels, increase the appetite, act gently on the liver, purify the blood, improve the whole system, keep it in order, and prolong life .-They are especially got up to strengthen and build up the system. In an English exchange we find the following: "It has been stated that a new American fraud is in progress. Some millions of counterfeit notes of the Bank of England are to be taken to New York and put in circulation through a banker in that city. Respecting the 'paper,' the counterfeits are exactly the same as the genuine material, and, as the cyes of experts will thus be of no avail, the scheme of issuing notes abroad is ingenious, since the chief, and perhaps only, mode of detecting the spurious notes would be by a comparison of the figures with the Bank of England lists."

IT is a well-known fact that all classes of goods get soiled and fadoù before the material is half worn, and only require cleaning or dyeing to make them look like new.

Try the GILBERT'S LANE DYE WORKS where every description of Dyeing and Cleaning is executed on short time, in the best manner, and at moderate prices. We have imported three new hands from some of the largest dye works in the oil country, men of a great many years experience, and using only the best of Dye Stuffs, we feel confident that we can turn out goods of all kinds, Cleaned, Dyed and Finished in a style that cannot be surpassed.

Special attention given to Black Goods, Damasks, and Morecens.
