The invention was given a recent trial on the Delaware, and notwithstanding it was the first time that it has ever been put into use, is said to have been a perfect success.-The machine represented somewhat an ordinary velocipede resting on three hollow, cigar shaped metallic tubes. In the centre, reaching down into the water, is a paddle-wheel, which is propelled by the feet, in the same manner as that of an ordinary velocipede on land. It was demonstrated, it is said that with this machine an expert velocipedist can make better time than the fastest orsman that ever pulled a boat, and if the recent experiment is to be taken as a specimen of what can be done, imitate the

the Diamond Rheumatic Cure, advertised the Diamond Rheumatic Cure, advertised in another column We do this having some experience in the matter. Being slightly sceptical as to the results promised, we purchased a bottle of the Cure for a friend of ours, who was very much troubled in the shoulders and hands.—Hardly three months have elapsed after using a single bottle, and she has not had a recurrence of rheumatic attack, although previously she suffered with it almost constantly.

We scarcely could hope her to be cured from using only one bottle, but it has convinced us that it is a sovereign remedy. We believe a that it is a sovereign remedy. We believe a couple more bottles will effect a permanent cure,
