

FENIANISM'S NEW NAME.—An other of the Fenian movement is being made in New York. On Sunday last deliberations were commenced under the auspices of the Metropolitan District Conference of the "Society of United Irishmen Redivivus," in Standard Hall. A New York paper says of this organization:—

"The Fenian movement is an organization of Irish nationalists banded together under the leadership of the Rev. Father J. V. McManis, and whose object is to mass together the best of the Irish people of this country to achieve their independence by force. The society is an outgrowth of the enthusiasm awakened by the addresses of Father McManis, last winter. Clubs have been formed in all large cities of this country and Ireland. It is Fenianism under a new title, and when Ireland is ready to strike a blow for freedom, this organization will be at her back and furnish her with men and money. The Conference will continue in secret session during the week, ending on Sunday with a public meeting, at which addresses are to be delivered by several influential members of the order."

DR. PIERCE.
From the Toledo Blade.
"Success is never achieved without merit. A man may make a poor article and sell it once, and then being 40,000 people in the United States, the sale to each one would be enough to make a fortune. But an article that holds the field year after year, and the sales of which increase regularly and rapidly, must have absolute merit."

Dr. R. V. Pierce, of Buffalo, N. Y., occupies our entire eighth page to-day with his various articles. We admit it because we know the Doctor, and know of his articles. We know him to be a regularly educated physician, whose diploma hangs on the wall of his office, and we know that he has associated with him several of the most eminent practitioners in the country. We know that parties consult him, by mail and in person, from all the States in the Union every day, and that they are fairly and honestly dealt with.

This grand result has been accomplished by two agencies—good, reliable articles—articles which, once introduced, work easily their own way—and splendid business management. They have succeeded because they ought to have succeeded.

If you would patronize Medicine, scientifically prepared by a skilled Physician and Chemist, use Dr. Pierce's Family Medical Golden Medical Discovery is nutritious, tonic, alterative, and blood-cleansing, and an unequalled Cough remedy. Pleasant Purgative Pills, scarcely larger than mustard seeds, constitute an agreeable and reliable remedy. Favorite Prescription, a remedy for debilitated females; Extract of Sarsaparilla, a magical remedy for skin diseases, eruptions, and an unequalled Liniment for human and horse flesh; while Dr. S. B. Catarrh Remedy is known the world over as the greatest specific for Catarrh and all the "Head" ever given to the public. They are sold by druggists.

20 YEARS A SUFFERER—CURED BY THE GOLDEN MEDICAL DISCOVERY.
Dr. R. V. PIERCE:
Dear Sir—Twenty years ago I was shipwrecked on the Atlantic Ocean, and the cold and exposure caused a large abscess to form on each leg, which kept continually discharging. I was attended by doctors at Liverpool, Havre, New Orleans, New York, and at the hospital on Staten Island (where the doctors wanted to take one leg off). Finally, after spending hundreds of dollars, I was persuaded to try your "Golden Medical Discovery," and now, in less than three months after taking the first bottle, I am thankful to say I am completely cured. For the first time in ten years can put my left leg to the ground. I am at home nearly every evening and shall be glad to satisfy any person of the truth of this information. I am, sir, yours respectfully,
WILLIAM RYDER,
87 Jefferson Street, Buffalo, N. Y.

A TERRIBLE GALE—THIRTY LIVES LOST.
A special from the Houston, Texas, Times, dated Sept. 17, says there has been a fearful gale at Galveston. The city is a low-lying water, which is several feet deep in the principal streets. Several wrecks are reported. The Ocean House on Gulf Beach is entirely surrounded by water and the water is under the house. The City Hospital is filled with water and much damage is already sustained by citizens, who are terribly frightened, and the storm is predicted to be the worst since 1867. Thirty workmen on the breakwater being built by the Government were out and are lost. The Santa Fe railroad bridge across the bay was swept away and the Houston railroad bridge is under water, twenty feet of this end being washed away. The water at Virginia Point has backed up for three miles on the main land and is still rising.

THE PILLAGE OF CUCUTA.—The day after this terrible earthquake people flocked in on all sides, armed with implements for digging and mules to carry the plunder away. Many merchants who attempted to find and recover their wares had to proceed to the ruins in hand. The pillage of the ruins went on for five days, during which time those who had sent away some fifty mule-loads of the goods of the unfortunate that lay buried under the ruins of what had been the fine city of Cucuta, in the Republic of Colombia. The streets and lanes among the ruins were covered with all kinds of goods and merchandise. In one place boxes of wine had been opened, the contents of the wine had been scattered around; in other places, chandeliers, silk trimmings, furs and furniture. In another were to be seen tin of sardines, salmon, oysters, all sorts of delicacies, more or less covered with mud. In the midst of all this there were some of the people of this unfortunate city setting off Chinese crackers, drinking and eating, and dead bodies, and shouting out "Now the rich are poor, and the poor rich." All this was accompanied with the clamors of the living, the groans of the dead, and the cries of those buried alive, who begged to be helped out from under the ruins of their fallen houses. Some pious old woman would come into view with her lap full of stolen articles, murmuring, "What a terrible misfortune," and then hastening home to count the beads of her rosary and take an inventory of the valuables in her possession. The whole scene was of the infernal region, and seemed a foretaste of the day of judgment. And so passed several hours; and those who, left, and those who could not, but the best that was to be done under the circumstances. The very aid sent to the unfortunate robbers managed to share, and little of it fell to the lot of the really deserving. The Chief of the military authorities there abandoned his post. The Colombian Guard, as it was called, mutinied; and after robbing what it could, deserted. Even the Archbishop fled to Bogota. During the past fortnight the outrages perpetrated by the union men have been so numerous that the whole country views with alarm the state of affairs in the mining regions. Vigilance committees are being formed for the protection of law-abiding citizens, and it is probable that the whole question of trade unionism will be brought before the Legislature at its next session, with a view of limiting the power of the organizations which are crippling trade and endangering life and property throughout the country.

Rev. Mr. Prince, of St. Stephen, during his late tour, collected in this Province and New Scotia \$1850 for the construction of the Methodist Church of that town.

The *Digby Courier* says of Robbins, who was indicted for the murder of a woman, that he is a quack. He seems to have, previous to the commission of his crime, studied his Bible in connection with them and to have worked out for himself an expensive plan of repentance and salvation.

Under this impression he committed the crime, but time and the solitude of his cell gradually dispelling the dreams of the deluded man, and giving him a first glimpse of the truth, he has been converted.

Widow J. H. Harlow was moving an old brick oven from the place where it was formerly occupied by the late John Harlow, who had covered somewhere between \$40,000 and \$50,000 of the missing money in a brick vault under the oven. The people of Windsor now believe the cashier took the money instead of the money.

A terrible tragedy is reported from Auburn, N. Y. A man named Harrison Andrews first attempted to murder his sleeping son by locking up his brains with a hatchet, and then around his two daughters, one of whom he shot through the abdomen, finishing his diabolical work by setting fire to his house, and then committing suicide.

Ayer's *ARMY OF ANIMAX* has arrived, and is now ready for delivery, gratis, by our druggists, to all who call for it. Our readers will be surprised to know that this little pamphlet, which has become so much a favorite in our section, has been the cause of the circulation of any one book in the world, except the Bible. It is printed in many languages, and scattered through many nations, as well as supplied to almost the entire population of our vast domain.

Every family should keep it, for it contains information which is all liable to require, when sickness overtakes them, and which may prove invaluable from being at hand in season. If you take our advice, you will call and get an Ayer's Almanac, and when you get it, be careful.

BE CAREFUL.—In these days, when tight hats, hot air, and sedentary occupations, cause the hair to fall out, it is a matter of little importance to know which of the hair preparations are of any value. The majority, as has been frequently proved by the first dermatologists, or hair-doctors, possess little or no merit. Such being the fact, it is consoling to those who are afflicted to know there is really one good article, which is the first dermatologist, or hair-doctor, possess little or no merit.

This preparation is *HALL'S VEGETABLE SCALP HAIR RESTORER*,—a truly scientific compound, which is unquestionably the best preparation of the kind now before the American public. It will restore to gray hair its original color, cleanse the head thoroughly, cure all eruptions of the scalp, and will always restore the hair so long as any remains, except as they are destroyed by the roots. The original article is made by Dr. J. C. Hall & Co., New York, N. Y.—*Forney's Press*, Jan. 25, 1868.

HEED THE WARNING.—Does it not appeal the strongest mind to think upon the sad results caused by neglected dandruff? The delay of what expense can be offered when the timely warning is sounded in your ears? When the danger is pointed out, why not heed it? Dr. Wilson's Pulmonary Cherry Balsam has been used with success in many cases that the virtuous do not admit of a doubt. One bottle will convince the most incredulous that we are not exaggerating the merits of this preparation, that we are in fact falling short of the eulogies bestowed upon it by the thousands who have been cured by it.

Dr. Wilson's Family Anti-Bilious Pills recommended themselves to the attention of all sufferers. No injurious consequences can be made in their administrations. In indigestion, confirmed dyspepsia, and chronic constipation, the most beneficial effects have been always obtained from the wholesome power exerted by these purifying pills over the digestion. Persons whose lives were a continued series of sufferings, have been restored to ease, strength and perfect health by the use of these admirable pills, after the fruitless trial of all other remedies.

For horses that are troubled with the disquieting scratches, Dr. Dow's Stomach Oil Liniment proves an efficient remedy. Our teamsters say it is one of those things which suits horse flesh exactly, and that there is hardly an ailment which it will not cure.

The very best medicine in use for a horse among us is that prepared by Professor Clark, called Clark's Derby Condition Powder. He is to be consulted by the veterinary College in London, and a graduate of the Royal College of Medicine, and has conferred more distinction upon it than its diploma upon him. It is ready for use, and is to be used in the manner of a powder, wherever there is a horse or herbivorous animal.

JOSEPH A. EVANS, at Clinton, N. B., thus writes to Mr. Feltows: "I believe under kind Providence, that Mr. Feltows' Compound Syrup of Hypophosphites has been the means of restoring both my wife and daughter. The latter from Tubercular Consumption, and I hope the afflicted will avail themselves of its use."

Life has few charms for the Dyspeptic, which is not to be wondered when we take into account the amount of bodily and mental suffering that this distressing malady generates. The Peruvian Syrup (a prototype of Iron) has cured thousands who were suffering from this disease.

Telegraphic News.

LONDON, Sept. 20.—The Richmond Iron Works at Stockton-upon-Tees, comprising 26 furnaces and rolling mills and employing 300 hands, have suspended. The concern is insolvent. The *Servian* newspapers say the Government received a note from the Sultan. Forth asking if Turkey may rely upon the maintenance of Servian neutrality. The *Servian* Government has not yet replied.

New York, Sept. 20.—Gold 114 1/2 and 117 1/2. Details of the great equinoctial storm in Texas, especially at Galveston, are received. The loss and injury to property is estimated at from two millions to five millions of dollars. But few lives are reported lost.

LONDON, Sept. 20.—The fifth and sixth corps of German army numbering 60,000 men, concluded autumn manoeuvres on Wednesday. It is estimated that they fought against each other, and after three days hard fighting, victory was awarded to six under Grand Duke of Mecklenburg-Schwerin. Conflicting reports come from the northwestern provinces of Turkey. Ali Pasha claims a victory over the insurgents in Asia, while news from their sources state that the Servians intend to declare war against Turkey. The *Papal Nunzio* at Madrid, received instructions to leave his post, if Spanish Cabinet's decision with regard to his circular be of aggressive character.

New York, Sept. 20.—The steamers *Montreal* and *Quebec* collided on their way to Quebec, crushing bow, side and masts, and sinking. It is estimated that England will require eleven million quarts of wheat from abroad. The steamer *City of Wasco*, from New York, was wrecked on the coast of Vancouver. No lives lost. Four boys sailing at Toronto, Sunday, were drowned by the upsetting of a boat.

LONDON, Sept. 21.—The *Courier de France* states that the Cabinet has unanimously resolved to propose the abolition of the system of voting by department. The *Courier* anticipates, in consequence, the overthrow of the ministry in November. Only 800 Carlists entered France, and these by the Gave de Pau; also Gen. Sabala, with two sons, and several Carlist leaders. Reinforcements to the number of 80,000 men to Cuba by the 15th of November.

New York, Sept. 21.—The *Mechanic's Bank*, of Montreal, has suspended. Gold \$117 1/2 and \$117 1/2. A Morgan steamer, just arrived at Galveston, reports the town of Indiana, Texas, almost entirely destroyed. The lighthouse wharf and nearly every house were swept away, and from 100 to 150 lives were lost. The steamer could not find a place to land her cargo.

LONDON, Sept. 21.—Sir Edward Wallcut, who has published in London, his report of the condition of the Erie Railway. He urges the policy of self-redemption, and calls upon the English stockholders to accept a pro-tem committee for receiver for the Erie Railway. The board of directors of the Erie Railway are now in session at New York. A session of the States General was opened at the Hague, yesterday, by the King of the Netherlands. The subject of the conference is the proposed canal between the North Sea and the Mediterranean.

New York, Sept. 21.—The subscriptions to the guarantee fund of the Bank of California amount to seven and a half millions. A vessel of war will soon sail for Port au Prince, Haiti, by the steamer *Minister*, who has been threatened because he protected refugees during recent troubles.

LONDON, Sept. 22.—The *Westminster Gazette* says the supply of money for large papers continues scarce. There has been no change in the rate of discount. Market firm.

NEW JERSEY, Sept. 20.—The Minister of Public Instruction in the Chamber of Deputies today, in the request of the Emperor to name a list of eight months duration to Europe and the United States.

New York, Sept. 22.—Gold 116 1/2 to 116 3/8. The Massachusetts Democratic Convention, to-day, re-nominated Gustavus Franklin Garrison. Additional losses of life and property continue to be reported from towns in Texas.

LONDON, Sept. 22.—The insurance in Northern Britain failed for want of hearty co-operation on the part of the villages and want of preparation. The cause of the revolt was the need of the villages of the villages by the Turks. The Spanish Government will maintain the royal prerogative in spite of the clamor of the press. The *Germania*, at Berlin, an ultramarine paper, has been imprisoned for insulting Bismarck through its columns.

New York, Sept. 22.—The crops in the Province of Quebec were injured by the recent gale, which also damaged the *St. Lawrence* and *St. Charles*. The Silver Ware Factory of the Whiting Manufacturing Company, at North Attleboro, Mass., was burned last night. Loss \$100,000. Besides the town of Indiana, Texas, the town of Matagorda, and Cedar Creek, also almost entirely destroyed. Two hundred lives supposed to have been lost. The destruction is very great. The storm did immense damage to other places along the coast, and a sad story of suffering and privation comes with urgent appeals for immediate help.

CASTLE ST. ST. JOHN, N. B., January 1, 1875. Messrs. T. GRAHAM & SON.
About four years ago I got my ankle badly injured, causing it to swell so much that I could not put on my boot, the pain being so severe that I could scarcely move about for two weeks. I used different popular remedies without benefit till I tried GRAHAM'S PAIN EXPELLER, which cured me by a few applications.

I recommended it to a friend who had suffered from a sprain for more than six months and he was cured by less than a bottle. I have used it in other cases of pain with equal success, and for Coughs, Colds, Sore Throats, etc., it is the best remedy I have ever known.

THE IMPORTANCE OF HEALTH.
None but those deprived of this blessing know its loss. The plumed, bloated, freckled and tettered covered person, looks upon a clean smooth skin with jealousy, and wishes the same. Those whose systems are afflicted with eruptions, or hair-doctors, possess little or no merit. ANNEX: Nova Scotia, Jan. 28, 1875.
We would call the attention of our readers to the Diamond Rheumatic Cure, advertised in the *Maritime Sentinel*, which we have used with the most successful results. We have suffered from this disease for many years, and have been treated by all the best medical men, but have not been cured. We have used three bottles of the Diamond Cure, and we feel that we are cured. We would call the attention of our readers to the Diamond Cure, and we would call the attention of our readers to the Diamond Cure.

As Proof, RESULTS.
Messrs. Devine & Doherty, 117 William Street, Montreal.
I will certify to the relief and perfect cure afforded me, contrary to my expectations, of a severe attack of Rheumatism, by the use of the Diamond Rheumatic Cure. Suffering with it for years, and with increasing severity in each succeeding year, I gladly availed myself of the use of the Diamond Cure, with the result as above stated. I have consequently recommended it with equal success to several of my friends who have been similarly attacked with Rheumatism.
JAMES DOWNE, Sexton Parish Church of Notre Dame.
