RIVER PHILIP, N. S , April 10, 1873. Messrs. T. Graham & Son, -Dear Sirs: Having used your Pain Eradicator for ten years, in almost every case with beneficial results, my confidence in its efficacy was such that last season I took a quantity with me to Manitoba, and whilst engaged there can attest to its benefit both to myself and to the men of my party in several cases of Rheumatism, Sprains, Bruises, etc. Should I return there this season I will provide myself with another supply.

Yours truly, OTIS B. DAVIDSON, Deputy Land Surveyor. G. Holland Snow,

Woodstock, Dec. 16, 1874-1y-50

DISEASE OF THE LIVER. The liver is much more frequently the seat of disease than is generally supposed. The functions it is designated to perform, and in the regular execution of which depends not only the general health of the body, but the powers of the stomach, bowels, brain, and the whole nervous system, shows its vast and vital importance to human health. When the liver isseriously diseased, it in fact not only deranges the vital func-tions of the body, but exercises a powerful influ-ence over the mind and its operations, which cannot be easily described. It has so close a concannot be easily described. It has so close a connection with other diseases, and manifests itself by so great a variety of symptoms of a most doubtful character, that it misleads more Physicians, even of great eminence, than any other vital organ. The intimate connection which exists between the Liver and the Brain, and the great dominion we are persuaded it exercises over the passions of mankind, convinces us that many unfortunate beings have committed acts of deep and criminal atrocity, or become what is termed Hypochondriacs from the simple fact of a diseased state of the Liver. We have long been convinced that more than one-half of the complaints which occur in this country, are to be considered as having their seats in a diseased state of the Liver. We will enumerate some of them: Indigestion,

We will enumerate some of them: Indigestion,
Stoppage of the Menses. Deranged State of the
Bowels, Irritable and Vindictive Feelings and
Passions from trifling and inadequate causes, of
which we afterwards feel ashamed; last though
not least, more than three-fourths of the diseases
enumerated under the head of Consumption, have their seat in a diseased Liver. This is truly a frightful catalogue. Wilson's Tonic and Sarsaparıllian Elixir as a remedy for Liver and Bilious Complaints has no equal. The great success which has attended its use will convince the most incredulous. It has been the proprietor's wish that this Elixir should be fairly and fully tested, and that the result has been in every respect favorable, numbers of witness can testify.

E. D. WATTS

Would respectfully intimate to the readers of the Carleton Sentinel that he has now completed his stock of

DRY GOODS! for the autumn and winter, and would respectfully request the inspection of Wholesale and RETAIL buyers visiting St. John.

Letter orders carefully attended to; Patterns or quotations by mail. The Stock includes every variety and novelty in Dress Goods, Shawls, Mantles, Furs and Fur Cloths,

Gloves, Scarfs, Skirts, Corsets. MILLINERY! Yarns and Fancy Wools; Gentlemen's Wear;

for his high standing in the profession, and the learning and science of an able mind, quickly compelled the CENCOR to succumb, and now physicians generally all over the world, where this medicine is introduced, admit of its wonderful efficacy, and often prescribe it for their patients. Of course, the use of the Diamond Rheumatic Cure, without the aid of a physician, is a saving in fees to the sufferer, but the really conscientious physician should rejoice at this, for the reason of the general benefits arising to mankind from its use. Boys' Suits and Overceats; Reliable Household Goods. With a large stock of FANCY NOVELTIES. 50 PRINCE WM. STREET, ST. JOHN. November 4, 1874.

OFFICE OF SARITARY POLICE,
Montreal, June 18, 1874.

Mesers Daving & Bolton:

Gentlement, Having been one of the many rapper of the most terribly acute pains of the corist that for or six weeks the most terribly acute pains of the trace and the first or six weeks the most terribly acute pains of the first of the ward to breath that it was very difficult for me to speak, and in the night time the beautiful of rabut a year without receiving any benefit. In fact I continued getting worse all the time. At last I was addied to try the Great Shoobonees Remedy. I bought a bottle and took, and with it was a ward to the state of the control of the control of the ward to the control of the

It is recommended by Physicians everywhere, who are acquainted with its great usefulness.

Dr. A. L. Scovill, of Cincinnati, Ohio. says:—
"I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaints. I believe it to be a certain cure; and if every family would keep it by them, ready to administer upon the first appearance of disease about the Lungs, there would be very few cases of fatal consumption. It causes the phlegm and matter to rise without irritating those delicate organs (the lungs), and without producing constipation of the bowels. It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state."

TAMAR INDIEN. Grimault & Co.'s Gurana,

Rheumatism and Gout have heretofore been considered by the ordinary practising physicians as incurable diseases, and the querry has often been propounded, of what benefit to the helpless sufferer is all their pretended science; and what doth it avail—their long and tedious course of study—if they are obliged to acknowledge that all their resources are to no account when called upon to prescribe for a patient suffering from chronic rheumatism. The great trouble lies in the fact that the mode of investigation is prescribed within certain boundaries and limitations compelling the student to tread in certain well worn paths, or suffer disgrace and excommunication from that highly respectable order of mortals known as the Medical Faculty. How often genius has been curbed in its flights of investigation can easily be imagined. And often really grand and beneficial discoveries have been placed under the ban of censure by those self-constituted ed censors, for no reasons whatever, but that they
