THE WEEKLY SUN.

NEW YORK.

Eighteen hundred and seventy-six is the Centennial year. It is also the year in which an Opposition House of Representatives, the first since the war, will be in power at Washington; and the year of the twenty-third election of a President of the United States. All of these events are sure to be of great interest and importance, especially the two latter; and all of them and everything connected with them will be fully and freshly reported and expounded in The Sun.

The Opposition House of Representatives, taking up the line of inquiry opened years ago by The Sun, will sternly and diligently investigate

THE SUN, will sternly and diligently investigate the corruptions and misdeeds of GRANT'S arministration; and will, it is to be hoped, lay the foundation for a new and better period in our na tional history. Of all this THE SUN will contain

tional history. Of all this THE SUN will contain complete and accurate accounts, furnishing its readers with early and trustworthy intormation upon these absorbing topics.

The twenty-third Presidential election, with the preparations for it, will be memorable as deciding upon Grant's aspirations for a third term of power and plunder, and still more as deciding who shall be the candidate. Concerning all these subjects, those who read The Sun will have the constant means of being thoroughly well informed.

The Weekly Sun, which has attained a circulation of over eight thousand copies already has its readers in every State and Territory, and we trust that the year 1876 will see their aumoers doubled. It will continue to be a thorough newspaper. All the general news of the day will be found in it, condensed when unimportant, at full length when of moment; and always, we trust, treated in a clear, juteresting and instructive manner.

manner.

It is our aim to make the Weekly Sun the best family newspaper in the world, and we hall continue to give in its columns a large amount of miscellaneous reading, such as stories, tales, poems. scientific intelligence and agricultural information, for which we are not able to make room in our daily edition. The agricultural department especially is one of its prominent features. The tashions are also regular y reported in its columns; and so are the markets of every kind.

The PRINTING Office occupies the whole of the second story over CROPLEY'S BOOK STORE, Wilmot's Block, and is furnished with fast Presses, and the latest styles of Type. The work executed in this Department is not surpassed in the Prov-Other novelties expected to arrive weekly. The BOOKBINDERY is in the third story over CROPLEY'S BOOK STORE, and is furnished (equal to any Bindery in the Province) with a PAPER RULING MACHINE, and with the latest and best Machinery and Tools. The Foreman is one of the neatest and most experienced Bookbinders and Paper Rulers in Canada,—consequently the subscriber is in a position to execute orders for every variety of Bookbinding equal to any other establishment in the Dominion. Account Books or Blank Books Ruled to any pattern and Headings Printed.

Whilst the quality of our work is not surpassed by any establishment in the Province, the Prices are as low as those charged for much inferior work. McDONALD & KEDEY. Fredericton, September 8, 1875

by any establishment in the Province, the Prices are as low as those charged for much inferior work. The subscriber solicits the patronage of Up-River people. The building of the River du Loup Railway ("the Narrow Gauge") has brought Fredericton within a very few hours' ride of the inhabitants of Madawaska, Victoria and Carleton Counties. Fredericton ought to be able to command the whole of the up-river wholesale trade. The subscriber will give his best efforts to effect this, by selling as cheap as a cother house in the Province.

Has just received a large and fine assortment of Scotch and English Tweeds.
