in Allan's SENTINEL OFFICE, Brick Building, up stairs

THE CENSUS.

We should like very much to pursue the line of comparison to ascertain the relative productiveness of the cultivated acres of Carleton County, in regard to the other various field crops as we have in regard to wheat and potatoes. We should like to do this confident that it will be found that the soil of these upriver intervales and highlands compare most favorably in all respects as to capacity for producing with those of other counties of the Province and the Dominunduly exalt one above other portions of and Surgeon S. Smith, M. D.
