Y., we have received "Tne People's Common Sense Medical Adviser, in plain English; or Medicine Simplified," by R. V. Pierce, M. D., Coungellor-in-Chief of the Board of Physicians and Surgeons at the World's Dispensary. Whoever helps humanity in its struggle with its inherent weaknesses and diseases, to bear or cure, is its benefactor. Ignorance is not only of itself a cause of disease and mortality, but it is the enemy of every effort to cure or mitigate. Nothing will so speedily remove this cause as knowledge (an elementary one at least) of the diseases to which we are heir, as well as those superinduced by our own imprudence. Dr. Pierce has rendered, in our judgment, a benefactor's service, both to the afflicted and to the profession, in his diagonsis of the diseases treated of, and in the presentation of the philosophic principles involved in their cause and removal. He is sparing of remedies, and usually prescribes such as are safe in unskilled hands. As a book merely of abstract knowledge, it is exceedingly readable and interesting, especially the following ashieute. Careken Britain has much improved by a change of weather. Quacks Confounded!

Rheumatism and Gout have heretofore been considered by the ordinary practising physicians as incurable diseases, and the querry has often been propounded, of what benefit to the helpless sufferer is all their pretended science; and what doth it avail—their long and tedious course of study—if they are obliged to acknowledge that all their resources are to no account when called upon to prescribe for a patient suffering from chronic rheumatism. The great trouble lies in the fact that the mode of investigation is prescribed within certain boundaries and limitations compelling the student to tread in certain well worn paths, or suffer disgrace and excommunications. worn paths, or suffer disgrace and excommunication from that highly respectable order of mortals known as the Medical Faculty. OFFICE OF SANITARY POLICE, Montreal, June 18, 1874.

Gentlemen,—Having been one of the many martyrs of rheumatism that I meet on my daily rounds, I was induced to try the celebrated Diamond Recumatic Cure. I had suffered the last five or six weeks the most terribly acute pains across my loins and back—so severe, indeed, across my loins and back—se severe, indeed, that I could hardly walk without the help of a stick. I commenced using the Diamond Remedy, following the directions carefully. Relief came immediately with the first bottle—improved with the second, and completely cured and free from pain after using my fifth small bottle. You are at perfect liberty to refer to me either privately or publicly, as I teel very thankful for the relief and sympathy with my tellow sufferers from rheumatism.

WILLIS & LAW,

DYERS AND FRENCH CLEANERS It is a well-known fact that all classes of goods get soiled and faded before the material is half worn, and only require cleaning or dyeing to make them look like new.

Try the GILBERT'S LANE DYE WORKS where every description of Dyeing and Cleaning is executed on short time, in the best manner, and at moderate prices. We have imported three new hands from some of the largest dye works in the old country, men of a great many years experience, and using only the best of Dye Stuffs, we feel confident that we can turn out goods of all kinds, Cleaned, Dyed and Finished in a style that cannot be surpassed.

Special attention given to Black Goods, Damasks, and Morecens.

Gentlemen's Coats, Vests and Pants Cleaned or Dyed without ripping or injury to the linings.

Kid Gloves Cleaned by a new process without heating.

Carpets Cleaned by a new process without beating.

All orders left with the Agent, J. H. GOLDEN, Connell's Brick Block, will be promptly ttended to.

AGENT WANTED IN EVERY TOWN. SEND FOR TESTIMONIALS. A roof may be covered with a very cheap shingle, and by application of this slate be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better, and lasting longer than new shingles without the slate, for one-third the cost of re-shingling. This Paint is practically ire-proof against sparks or flying embers, and for tin and iron has no equal, as it expands by heat, contracts by contract

STOPS ALL LEAKS.

Two to three gallons will cover 100 square feet of shingle roof, or 400 to 600 square feet of tin, iron, felt, matched-boards, or any smooth surface; although the Paint has a heavy body it is easily applied with a brush, and neither cracks in winter, nor runs in summer.

On decayed shingles it fills up the holes and pores, and gives a new substantial roof that lasts for years. Curled or warped shingles it brings to their places, and keeps them there. It fills up all holes in Felt roofs, stops the leaks, and although a slow dryer rain will not affect it a few hours after applying. As nearly all Paints that are black contain tar, be sure you obtain our genuine article which (for shingle roofs) is CHOCOLATE COLOR, when first applied, changing in about a month to a uniform slate color, and is to all intents and purposes our red color is usually preferred, one coat being equal to five of any ordinary Paint. For BRICK WALLS our bright red is the only reliable slate Paint ever introduced that will effectually prevent dampness from penetrating and discoloring the plaster. Our
