Telegraphic News. London, January 4—The whereabouts of the Archbishop of Cologne is still secret. Deak, the Hungarian statesman, is seriously ill. The Span sh Ambassadorship to the Vatican has been offered to Cardenas. The Archduke Rudolph, Prince Imperial of Austria, will be crowned King of Hungary in July. Reports of serious disagreements between the Khedive of Egypt and McCave, the British special commissioner, are confirmed. Negotiations between the Vatican and Spain in relation to the Concordat are suspended until after the election of Cortes. The Hawekridge Cotton spinning Mill at Atherton, Lancashire, was burned. Loss, \$175.000. Two hundred hands are thrown out of employment. The resignation of Prince Von Auers Atherton, Lancashite, was described property.

Onc. Two hundred hands are thrown out of employment. The resignation of Prince Von Auers perg' President of the Austrian Cabinet, is feared in consequence of difference s with nungary on the currency question. The Russians are apprehending another attack from the unannexed portion of Khokand, and are preparing to cross the Syra Darid and occupy Marghelan and Undergan. The new French Press Law has been promulgated, and several prominent Paris journa's which were suppressed or forbidden to be sold in the streets, have resumed publication. The Archbishop Lodocnowski's imprisonment terminates Feb. 3rd, and the Catholics of all Germany propose to celebrate the day. The Government will intern him if he does not leave the country. The Grand Vizier requested the Pope Thympey property, containing 181 acres more the country. The Grand Vizier requested the Pope to use his good offices with the Catholic insurgents in Herzegovina with a view to peace

London, Jan. 5.—A letter from Ragusa states that all information from official and unofficial sources confirm the opinion that not only is the Austrian occupation of insurrectionary provinces determined upon, but that some foreign occupation

determined upon, but that some foreign occupation is absolutely necessary as a precaution against a most probable massacre of Christmas wherever they are unarmed and helpless. A correspondent at Cairo denies there is any foundation for reported trouble between Mr. Cave, the British commissioner, and the Khedive. The London stock exchange was seriously disturbed, yesterday, on account of these remores and there were rumors of a heavy fall in Egyptian securities, which partly recovered to-day.

Negotiations have been opened for a renewal for ten years of the compromise of 1867, when Austria and Hungary dualized. Two boys are missing from the English training ship Warspite. burned on Monday. It is supposed these boys set the vessel on fire. Count Andrassy's note for pacification of Turkish insurgents received the approval of Germany, and has been sent to London. Paris and Rome. Great stagnation prevails in the grain trade of southern Russia and a collapse in agriculture and commerce is threatened—American competition is attributed as the principal cause.

MONTREAL, June 12, 1873. Messre. T. GRAHAM & SON. I had for twenty years been subject to frequent and severe attacks of Rheumatism which had so prostrated me that it was only

with the assistance of the crutch and a canthat I could leave my chair or move about Of the many remedies I had used and means I had tried, nothing done me any promanent good until nearly two years ago, when a friend brought me a bottle of your PAIN ERADICATOR, and at her request I gave it a trial, although without any confidence

in it or hopes of a cure. The result of its use has been most satisfactory, it has freed me of rheumatic pains and, although the cartillages of many of my joints have been greatly enlarged, I can easily walk five or six miles without using a cane, a result that has astonished my acquaintances, and a knowledge of which has induced many others to try it, and all that have used it speak highly of it.

DISEASE OF THE LIVER.

The liver is much more frequently the seat of disease than is generally supposed.—
The functions it is designed to perform, and in the regular execution of which depends not only the general health of the body, but the powers of the stomach, bowels, brain, and the whole nervous system, shows its vast and vital importance to human health. When the liver is seriously diseased, it in fact not only deranges the vital functions of the hody, but exercises a powerful influence

The subscriber offers for sale that valuable Farm, situated on the west side of the St. John River, about 2½ miles below Florenceville. I nown as the Peters Farm. It contains 100 acres of land. 40 of which are cleared and under a good state of cultivation; there is on it a house partly finished. and a barn. The land is well wooded and watered and the farm is well worded and watered and the farm is well worded. the body, but exercises a powerful influence over the mind and its operations, which cannot be easily described. It has ao close a connection with other diseases, and manifests itself by so great a variety of symptoms of a most doubtful character, that it misleads more Physicians, even of great eminence, than any other vital organ. The intimate connection which exists between the Liver and the Brain, and the great dominion we are persuaded it exercises over the passions of mankind, convinces us that many unfortunate beings have committed acts of many distribution. The intimate of the land. Any further intermation can be had on the premises by applying to the land. Becaguimic, January 1, 1876—1 unfortunate beings have committed acts of deep and criminal atrocity, or become what is termed H, pochondrias from the simple fact of a diseased state of the Liver. We have long been convinced that more than one-half of the complaints which occur in this country, are to be considered as having their seat in a diseased state of the Liver .-We will enumerate some of them: Indiges-tion, Stoppage of the Menses, Deranged State of the Bowels, Irritable and Vindictive Feelings and Passions from trifling and inadequate causes, of which we aft rwards feel ashamed; last, though not least, more than three-fourths of the diseases enumerated under the head of Consumption, have their seat in a diseased Liver. This is truly a frightful catalogue. Wilson's Tonic and Sarsaparillian Elixir as a remedy for Liver and Bilious Complaints has no equal. The great success which has attended its use will convince the most incredulous. It has been proprietor's wish that this Elixir should and fully tested and that the result n every respect favorable, numbers
