> > LONGEST SPEECH ON RECORD.-The Portland Press says:—The longest speech on record is believed to have been that made by Mr. De Cosmos in the legislature of British Columbia, when a measure was pending whose passage would take from a great many settlers their lands. De Cosmos was in a hopeless minority. The job had been held back till the eve of the session; unless legislation was taken before noon of a given day the act of confiscation would fail. The day before the expiration of the limitation, DeCosmos got the floor about 10 a.m., and began a speech against the bill. Its friends cared little for 1,468 they supposed by 1 or 2 o'clock he would be through, and the bill be put on its passage.
