POOR COPY

THE GREAT SHOSHONEES REMEDY is an Indian vegetable compound, composed of the juices of a variety of remarkable medicinal plants and herbs; the various properties of these different ingredients, when combined, is so constituted as to act simultaneously upon the Blood, Lungs, Liver, Kidneys, Digestive Organs, Nervous System, &c., restoring their functions to healthy action, and, being purely vegetable, is as harmless as Nature's own beverage. This medicine is a decided benefit in all, and a permanent cure in a large majority of diseases of the blood, such as Scrofula, Erysipelas, Salt Rheum, Canker, Pimples, &c. In prescribing this medicine we do not claim that it always performs cures; but this we do say, that it purifies and enriches the blood, permanently curing a large majority of diseases arising from its impurities. It stands far ahead and unequaled among the hundreds of competing medicines of the day. It has stood the test of ten years, and is to-day more popular than ever. As a summer restorative it stands unrivalled; it enables the system to bear up against the constant drain to which it is subjected by a high temperature. Persons who are subject to bilious Colic, Dysentery, Indigestion, &c., should take the "Shoshonees Remedy."—Price of the Remedy in pint bottles $1; Pills 25 cents a box.

Four Chinamen have joined a Baptist Church in North Adams, Mass.

The most successful community in the United States is that of the Ebenezers, near Iowa City, Iowa. These are a set of German religionists, who number about 1,500 and conduct their community somewhat like the Icarians, although they take as their model the community of the early Christians. They have grown quite wealthy, and have large woollen and other mills, and do considerable business with many parts of that and surrounding States.

Some ruffians stained the Soldier's Monument at Pittsfield, Mass., with rotten eggs, and the shaft had to be chiselled down to eradicate the marks.

In taking down houses in London about thirty-six feet of the ancient Roman wall, nine feet thick, and a solid semi-circular bastion were revealed.

The Russian Government has contracted with a Springfield firm for 20,000 revolvers.

A mercantile firm of Plymouth, England, bears the curious name of "Moon and Sons."

It appears that Cardinal Manning has been giving an address in which he points out what he considers signs and omens that England will return to Catholicism. Mr. Moncure D. Conway, on the other hand, believes that no unsophisticated mind can agree with the Cardinal. "One need only pass a little time in the country places of England to find how completely the very soil in which Catholicism once grew has been changed. All the legends and traditions, the very folk-lore, of the ancient Church have passed away utterly from the popular mind and memory."

A boarding-house keeper in Chicago read how the hotels in the White Mountains had school-mistresses and divinity students for waiters, and, to follow the example, induced a young man and two female teachers, whose salaries had been cut down, to undertake waiting at table. The first young woman was addressed by a boarder to "pass them beans," whereupon she fainted and spilled a plate of soup over the best false hair and down the back of a young widow. Her companion when called upon for a plate of "pud'n," said kindly, "You mean pudding, do you not?"

Three members of the English House of Lords within the last six years have committed suicide. Lord Walsingham, Lord Delaware, and more lately Lord Ribblesdale. The last, Lord Russell's son-in-law, aged 47, was known as a dissipated man.—Lord Delaware destroyed himself in a fit of love-melancholy, but Lord Welsingham's self-destruction remains one of the most mysterious of its kind. Within a month after the Prince of Wales paid him a visit at his seat in Norfolk, Lord Walsingham, without any known reason for the act, destroyed himself.

They have a queer law in Minnesota, whereby a murderer escapes the gallows by confessing his crime.

The young and prgressive State of Minnesota will not allow a woman to practice law. Judge Young has so decided. Mrs. Angle Dorset, a lawyer in Practice in Iowa, made application lately in Hennepin County and passed an examination which Judge Young declared to be the best of any applicant within his knowledge for a time, and yet a statute which has been in existence 25 years says than any "male person" with the requisite qualifications may be admitted to practice in the courts of the State, and this the Judge regards as equivalent to denying the privilege to female persons.

The London *Telegraph* says it is of vital importance in England that there should be a railway through Canada from the Atlantic to the Pacific. If that is so, England should subscribe liberally to pay for the road, and not be content with scolding Canada for not furnishing at her own cost that which "is of vital importance to England."—*London (Ont.) Advertiser.*

It occurred to Capt. Williams of the New York police on Monday to order his men to arrest all supposed night walkers, and he gave his men instructions to take to the station house every female whom they saw walking slowly by the Fifth Avenue Hotel. Twenty were arrested and locked up all night in cells with the vilest characters in the city. When dragged into court, weeping and fainting, on Tuesday, only two of the whole lot were found to be disreputable, all of the others being respectable working girls.—There is great indignation at this brutal outrage, and it is doubtful whether this officer will be much longer permitted to abuse his office.

On Thursday last, Mrs. Reuben Tourtillote and another lady set out from the Old Ridge to visit a sister of the former. When driving along, Mrs. Tourtillotte, who had her baby in her arms, wrapped it up rather tightly to protect it from the cold, and when they arrived at their destination it was lifeless. Dr. Black was sent for immediately, but could do nothing. Much sympathy is felt for the bereaved mother, whose grief is extreme.—*St. Stephen Journal.*

An article which we last week copied from the *Pall Mall Gazettte* in reference to the resignation of Bishop Medley, is, we understand, wholly without foundation. We are sorry such a report has been circulated; we considered the authority good and so copied it. We trust that the good Bishop who is still hale and vigorous, may long remain Bishop of Fredericton.—*Reporter.*

We have been credibly informed that gold has been discovered near Big Harbor in the County of Victoria. It is not found as gold generally exists in the gold fields of Nova Scotia proper, but is found embedded in slate in very thin layers, and in visible specks mingling with the slate, as found in gold fields recently discovered in Nevada. The information was given to a friend of ours by a Mr. Kandick, merchant, of Halifax.—*C. B. Advocate.*

A Lower Canadian Court has decided that reporters are not bound to give up the names of informants on whose statements they base their articles.

The *Volks-Zeitung* of Berlin tells of two wealthy ladies of that city, belonging to highly respectable circles, who have been sentenced to fourteen days' imprisonment in the common jail for stealing a pot of flowers which a poor woman had placed upon the grave of her child, and removing it to the Cemetery of the Georgen Kirche.

A dreadful thing happened a few weeks since in the church of Martres de Riviere, near St. Gaudeus, in France. The cure was celebrating the mass and had hardly lifted the chalice of wine to his lips when he fell as if struck dead. The people rushed to his aid at once, when it was found that one of the attendants whose duty it was to replenish the chalice with wine had poured into it by mistake oil of vitriol! The poor priest, happily, is thought to be out of danger.

A Savanah correspondent describing the ravages of the yellow fever in that city says there have been over thirteen hundred interments in that city since August 21. A singular feature or freak of the disease is its refusal, thus far, to attack the genuine negro. Not one of the full-blooded blacks has yet been attacked with any of its symptoms.—Where there is the slightest taint or mixture of blood, however, the ravages of the epidemic are apparent. Justly appreciating their happy immunity, the colored men and women have banded together in a little army of their own, and have performed a most efficient service from the very beginning.—They are to be found in every house where the disease is raging at its utmost, and their attention has something poetic in the sacrifices which surround it. The city everywhere is draped in mourning.

Ella Drew of Boston highlands, who swam from her row-boat and rescued a child last August, has just received by mail a handsome Maltese cross, with the date on one side, and "To the heroic young lady" on the other. She has never learned who it was she saved.

The *Independent* says: "A late English traveller found a simple-minded Baptist mission church, in far-off Burmah, using for the communion service, and we doubt not with God's blessing, Bass's pale ale instead of wine. The opening of the frothing bottle on the communion table seemed not quite decorous to the visitor, who presented the pastor with a half dozen bottles of claret for sacramental use."

SPENCER'S VESUVIAN LINIMENT.—THE BEST LINIMENT IN THE WORLD.—FOR OUTWARD APPLICATION ONLY.—GOOD FOR MAN AND BEAST.—I warrant this to be the best known remedy for Rheumatism, Piles, Salt Rheum, and all eruptions of the skin, Burns, Wounds, Sprains, Bruises, Swelled Joints, Lameness, &c. &c. It seldom if ever fails to cure Spavin Ringbone Windgalls, Scratches, Sweeney, Saddle and Harness Galls, Horse Distemper and most diseases to which domestic animals are subject. SPENCER'S VESUVIAN LINIMENT is put up in bottles at 20 cents, 30 cents and 40 cents each; also large bottles at $1.00 and $2.00 each. H. L. SPENCER, Medical Warehouse, 20 Nelson St., St. John, N. B.—4i-44

NEVER NEGLECT A COLD.—From gross contravention of this very simple advice, thousands of persons contract pulmonary complaints which might altogether be prevented by the use of Dr. Wilson's Pulmonary Cherry Balsam, the most effectual and reliable remedy ever placed within the consumptive sufferer's reach. It is painful to hear of the so many, now, we are sorry to say, fatal cases, which commenced with the ordinary symptoms of a common cold. Dr. Wilson's Balsam will prevent all disastrous consequences, if only allowed a fair trial. It soothes the inflamed lining of the throat and chest, and after a few doses the cough becomes loose and less frequent, the phlegm is expectorated with less difficulty, till the lungs become free and the respiration natural.

COSTIVENESS.—The bowels become torpid and powerless under continual purgation.—Dr. Wilson's Anti-Bilious and Preserving Pills penetrate to the nucleus of the disease and eradicate it. They evacuate the foul and vitiated particles from the intestines by a mild, aperient operation, and recuperates their exhausted energy by restoring tone and vigor. They induce a healthy action and prevent a relapse of the malady. For piles, fistula, dyspepsia, and all disorders of the viscera, they stand without a rival.

No other liniment combines, in so compact or concentrated form, the active and essential properties of an embrocation, or is so well adapted for the purpose, as Dr. Dow's Sturgeon Oil Liniment. All external pains, rheumatic and gouty tortures and contracted sinews, may be overcome by diligently rubbing this matchless liniment upon the skin.

Extract of a letter received by the agent of Clark's Derby Condition Powders from one who occasionally acts as a Veterinary Surgeon: "Having ordered from one of our druggists Derby Condition Powders I was not only disappointed in their effects but annoyed when I received a useless kind. I have been in the habit of using the Derby Powders with great advantage to my horses and stock. I may here remark it is the only powder of any benefit to meat stock. I have just sent a horse home, well, that was very bad with pneuemonia. I found your Powders all sufficient."

Eminent Men of Science have discovered that electricity and magnetism are developed in the system from the iron in the blood.—This accounts for the debility low spirits, and lack of energy a person feels when this vital element becomes reduced. The Peruvian Syrup, a protoxide of iron, supplies the blood with its iron element, and is the only form in which it can enter the circulation.

MARKING PENS.—A novelty has been introduced in this line in the shape of a glass pen which will not corrode or wear out, there is no split at the point to catch or spatter, and the ink flows freely off the point. This pen and a bottle of Payson's Indelible Ink should be in the possession of every housekeeper.

WANTED.—We want reliable, energetic canvassing agents in every town in the Dominion for the new "Illustrated History of the Dominion of Canada." This work is truly magnificent, containing over 2,000 double column quarto pages, and over 300 superb full page engravings. To energetic young men or ladies, who are willing to work, we will guarantee a permanent position for two years, and GOOD PAY! Don't fail to write for our private terms, sample pages, etc. This is a grand opportunity for school teachers to make more than double their salaries without interfering with their professional duties. Telegraphic News.

LONDON, Oct. 23.—Advices from Belgrade report the diplomatic situation unchanged. Hostilities recommenced on Thursday by two distinct operations, one in front of Saitschar, the other in the positions commanding Deligrad. By the latter movement the Turks captured 13 redoubts, great quantities of arms and many prisoners. The fight was long and bloody. The Turks continue to advance. On Saturday there was further fighting with Turkish success. The *Times* says: "There is perhaps danger that unreasonable alarms may be succeeded by unreasonable hopes; but it is evident we need not despair of seeing the crisis pass away without hostilities between Russia and Turkey." The Servians were badly whipped and lost 15,000 men in their attempt on Saitschar, and 3000 about Deligrad.

NEW YORK, Oct. 23.—Wm. Scharff won the United States championship and two thousand dollars by beating Morris in a five mile single scull race at Pittsburg. Time 35m. 35s., quickest on record. Over sixty lives were lost in the destruction of the whaling fleet by ice. The frigate Franklin arrived to-day with Boss Tweed.

VIENNA, Oct. 24.—Not only from Constantinople but from all the provinces of European Turkey is the news of growing excitement among the Mohammedans. Conventicles are being held in the Mosques. The Ministry is divided, and the Sultan is too inexperienced to take the leadership of affairs. This position is most favorable for Russian diplomatic action

LONDON, Oct. 24.—The *Times* leading article says: Only profound peace and great revival in trade can prevent a financial catastrophe in Austria. A financial crash is also threatened in Russia. The council previously announced was held by the Queen at Balmoral on Monday. Parliament was further prorogued from October 30 to December 12. Gloomy reports come from India. The crops are a failure, cattle are dying of starvation, and famine is threatened. Roumania has resolved upon declaring her independence. She relinquishes all claim upon European protection, replacing it with an alliance with Russia. A proclamation is to be issued proclaiming Prince Charles, King of Roumania. Great destitution prevails among the Turks and Servians, insufficient food and clothing causing great loss of life. Three officials of high rank have been arrested in Coustantinople for conspiring the murder of the Grand Vizier and Midhat Pacha.

LONDON, Oct. 25.—The Turks captured Djunis, on Monday after ten hours' hard fighting. Turkey has declared her readiness to accept the six weeks' armistice, provided it is recommended by all the Powers. Arrests continue in Constantinople on account of the last conspiracy. The alleged purpose of the conspiracy was to forcibly depose the reforming Government. A former Grand vizier is implicated. The action of the Roumania Government in declaring independence, relying upon the assistance of Russia, causes an uneasy feeling, and it is feared will complicate difficulties. An attempted insurrection in Spain has been suppressed, and many Republicans arrested.

CONSTANTINOPLE, Oct. 25.—General Ignatief, the Russian Ambassador, presented his credentials to the Sultan yesterday, and subsequently had a private interview with him.

NEW YORK, Oct. 24.—The announcement of Tweed's arrival was premature. The National Park Bank of New York has been robbed of $66,000. It is supposed it was done by its paying teller, Thomas Ellis, who has disappeared. Three hundred lodges of hostile Indians have been surrounded, captured, and the men disarmed. Three passengers were killed and nine badly wounded by an accident on the New Jersey Central railroad yesterday. The weather is clear and cooler. Gold 109 3-4.

MR. P. N. YOUNG, writing from Zanesville, Ohio, says: "I have kept Graham's Pain Eradicator on hand for the past seven years, and we could not think of keeping house without it. It has done great work here, and it is the unanimous opinion of those who have used it that it is the best family medicine in use.

PAIN IN THE BACK,

And all diseases of the Kidney and Bladder.

The disease commonly called back-ache, and to which WILSON'S TONIC and SARSAPARILLIAN ELIXIR is particularly applicable, is found to exist in the aged and infirm, the laborious and sedentary, is caused by obstructions or chronic inflammation of the kidney, ureter, bladder, &c., and is known by a deep seated pain in the small of the back, sometimes extending round the loins to the abdomen, or a dull, heavy, or numbing pain, extending from the back, down to the lower extremity of the right abdomen, to the inner part of the thigh. Great difficulty is experienced in voiding the urine, and many persons afflicted with this troublesome complaint are unable to endure violent exercise, many, when stooping, have difficulty in assuming an erect position. Persons suffering from these symptoms often mistake the disease for Rheumatism, and apply the ordinary remedies, such as plasters, liniments, &c., but without obtaining any relief. This Elixir strikes at the root of such diseases, and, by removing the inflammation, and stimulating the organs to a healthy action, the patient is relieved from all weakness and pain.

A CARD.

TO all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood. &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV JOSEPH T. INMAN, Station D, Bible House, New York City. 6m-24

Burglary!

THE Custom House in Centreville was broken into on the night of Wednesday, the 4th inst., by the *thieves* boring out the staple of the back door, and a lot of Dry Goods was taken therefrom, about one hundred dollars worth. The Dry Goods were seized by the subscriber in the house of Howard B. White, on the 25th of last month. The *thieves* left a few bulky articles of the seized goods, besides a sum of money which was carelessly left in the place overnight—there is no doubt the *robbers* were after specified articles—therefore I offer a REWARD of $50 for information that will lead to the conviction of the *thieves* or their assistants. Per order.
