sown land was very much more this spring than on any previous occasion. Judging from the returns of 1875, the surplus wheat crop of Ontario is not likely to be less than 2,500,000 bushels, which at present rates would sell for \$4,500,000. Since last crop of New York and Central railroad and extinguished all switch and signals lights, driving the men from Canada has had to import wheat and flour for its own use. The increased value of the entire crop can thus be estimated, and the estimate carries one up away into a vision of financial plethora which will be exceedingly refreshing to those who are fainting by the mark on account of slow pay and slack trade. two counferfeit \$10 bills of the Ba k of their work and taking the firemen from their <sup>1</sup> arrived in England.
