As advertised, the Ithaca Horse Rake will be ready for sale on 1st July, and we beg to call your attention to the fact that we have made improvements in the Rake as follows, viz.: Instead of a cast iron axle stuck on the end of the axle-bed with only two bolts and end of the axle-bed with only two bolts and which is so easily broken, we have a wrought iron axle properly secured by an iron plate Also, an improvement in the hub of the wheel, which will save the purchaser time and money in case he breaks a spoke, which can be replaced in five minutes without disturbing the rest of the spokes and we give extra spokes, painted and fitted, without extra charge with the Rake; this will be found a great convenience, as any Rake is subject to accident. We warrant the Rake; extra parts will be ready on demand if anything should give out by fair play, free of charge for the season. Instead of using all common eastings, we have sent to the United States for malleable castings for all the principal parts, will be found a great convenience, as any Rake is subject to accident. We warrant the Rake; extra parts will be ready on demand if anything should give out by fair play, free of charge for the season. Instead of using all common castings, we have sent to the United States for malleable castings for all the principal parts, and the teeth are from the best maker in the United States and are the same as used in the U. S. Ithaca Rake. Although these Rakes have cost extra on the above account, we will sell low, for cash; or if you are not so flush, give us a good note, or perhaps we can make a trade. We will sell a Mowing Machine and a Horse Rake for \$80.00.
