Telegraphic News.

LONDON, Feb. 5.—The *Times'* editorial says: "Prince Gortschakoff's circular will not, we fear tend to lessen the distrust with which Russia is viewed in England. It will be regarded as an invitation to begin war, from which, if Turkey has no allies, Russia would certainly profit. The English government will certainly reply with the approval of Parliament, that England will hold herself free to guard her own interests and the general interests of peace. England will await events. If Russia is more precipitate she must act on her own responsibility."

ST PETERSBURG, Feb 4.—Gortschakoff, in a circular, considers Europe, by its united diplomatic action, has proved deeply interested in the maintenance of peace in the East, and recognizes its duty as well as its right to co-operate for that end on behalf of general interests. The Russian government being guided by a desire to maintain this European accord in the new phase of the Eastern question has, before coming to any decision, instructed its representatives to ascertain for certain what course the governments to which they are accredited, mean to pursue in view of the refusal of the Porte to accede to their unanimous wishes.

CONSTANTINOPLE, Feb. 6.—The Sultan issued a decree yesterday, appointing Edhem Pacha, Grand Vizier, and making other changes in the Ministry. He then sent an Aide-de-Camp to notify Midhat Pacha of his dismissal and requested him to repair to the Palace. From thence he was immediately conveyed aboard the Imperial yacht, which sailed for the Mediterranean with orders to land him beyond Turkish territory.

LONDON Feb. 6.—A despatch from Constantinople to the *News* says:—"Midhat Pacha has long been opposing the Sultan who desired to yield and make concessi ns to the Conference. His removal is in every way desirable. Edhem Pacha's appointment will be conducive to conciliation.

NEW YORK, Feb. 6.—Arguments of counsel have closed, the electoral commission will now determine its power in respect to examining evidence, hearing testimony, and otherwise investigating facts relating to the Florida election. The banking firm of Buck & Hunting, Sag Harbor Long Island, N. Y., is bankrupt; liabilities $500,000. They held savings of all the industries in the place, much suffering will result. Governor Wells and other members of the Louisiana Returning Board, in their examination, wholly deny the statements of Democratic witnesses implicating them in frauds or trickery of any kind. A cable despatch says a formidable Russian iron-clad squadron will enter the Mediterranean in the spring. The Grand Duke Constantine will command and Admiral Popoff will be chief of staff.

LONDON, Feb 7.—The *Standard's* Berlin despatch says the change is considered preliminary to reopening relations with Turkey and the signatory powers. On the other hand, it is asserted the Russian army has received orders to advance, and will cross the Pruth within a few days.

CONSTANTINOPLE, Feb. 7.—Midhat Pasha was banished for conspiracy. Letters found disclosed that 30,000 Alcmas were to have gone on Monday night to the Palace to demand the abdication of the Sultan. The fall of Midhat will check no reforms, the Sultan being determined to carry out the constitution in its fullest spirit. The British man-of-war Bittern, about to quit Constantinople, has been detained by the English Charge d' Affaires, for the protection of foreign residents.

LONDON, Feb 7, p m.—The *Times'* editorial commenting on the full text of the Russian circular, says there is no suggestion of anything which can properly be called a threat. The circular is a continuation of Gen. Ignatieff's policy during the Conference. The Russian Government is determined that Russia shall not be placed in the wrong. We for ourselves may declare that we are satisfied with what has been done but we cannot blame Russia if she proceeds to accomplish what we all joined in desiring.

NEW YORK, Feb 7.—A despatch from Washington alleges that the electoral commission, in secret session, has decided not to admit new evidence.—If true, an early decision in the Florida case may be looked for. The death of Col. John O'Mahoney last night, removes the last link of active Fenianism.

MEDFORD, N. S., July 10, 1873.

Messrs. T. GRAHAM & SON.

I had long been troubled with *partial deafness*, from having taken cold in my head, causing complete deafness in one ear, there seemed to be a constant sound or noise in my head until I used GRAHAM'S PAIN ERADICATOR, three applications of which cured me, and I have not been troubled since using this medicine, over nine years ago.

CHARLES B. WARREN.

DISEASES OF THE SKIN.

Diseases of the skin although they are as a rule but little dangerous, yet add much to the sum of human misery. How quickly is the feeling of pity in our breast stirred by those few words in Scripture history "The dogs came and licked his sores." What more deplorable condition can a human being be in than this, and yet we may judge from the rest of the narrative "it came to pass that Lazarus died;" that it was in process of time and not directly from his sores that Lazarus' death came. Skin diseases, for their name is legion, all spring from impurity of the blood. The skin is the safety valve, through which these impurities pass out, when the natural emunctories are so clogged, as not to perform their office properly of eliminating the "materies morbi" from the blood.

By recognizing this fact, we see how it is that WILSON'S SARSAPARILLIAN and TONIC ELIXIR prevents these diseases from forming or cures them when formed.

By cleansing out the internal emunctories, stimulating the healthy process, by which they drain these impurities from the blood—the Elixir prevents these diseases, because it leaves NO POISON IN THE BLOOD for the skin to throw off, and where the disease is already formed it cures by cutting off the internal supplies.
