DR. GILES,

cally until intelligence is had as to how the anniversary has passed off in Montreal, as, for a year, much public discussion has been directed to the day and its observance in that city, and fears of a disturbance there have grown to such a serious extent as that the Government have felt called upon to make ample preparations, by concentrating two thousand soldiers in the city under Sir Selby Smtth, to guard against disturbance. It is to be devoutly hoped that those preparations will be sufficient to prevent any attempt at within the court house building. disturbing the peace, and that active military interference will not be necessitated. The state of feeling existing in Montreal is greatly to be regretted, and while the proposed Orange demonstration is not illegal, and the abstract right of that body to celebrate the anniversary must be granted, it is a pity that they could not, without sacrifice of principle and an appearance of tamely submitting to taunts and threats, have on this occasion confined their celebration to their Lodge rooms, is being improved. which after all is what is only enjoined upon good Orangemen. We should be very glad if, under the pressure of proper and honorable motives, these public party processions could, by consent, be suspended in the Dominion, where, as a rule, they do little good and sometimes, as in a community like that of Montreal, do harm. However men may travelling and hotel facilities, and of the justify antagonisms they may sometimes better be allowed to slumber than to be aroused rease yearly. to angry demonstrations which peril the peace of communities, a majority of the members of which, rightly or wrongly, do not feel much interest in the actors themselves or in the particular dogmas they represent.

DR. JACK, of the N. B. University, was tors. in town on Tuesday. While here he visited Mr. McCoy's Grammar School, and examined a number of classes in Mathematics and Classics. The Dr. spent some three hours in the school, with evident pleasure to himself. Before taking his departure he addressed the school, in complimentary terms both to teachers and pupils. The Dr. stated that it was always a source of great gratification to him to be able to visit the school. and notice the marked proficiency which characterized it.

So inveterate is the lingering feeling of aware of the change. distaste to confederation that led to such a decided opposition to it in its first years, in Halifax, that that city still refuses to recognize Dominion Day. With all the advantages that city has derived from the operation pleasant and a successful affair, although the

Is the result of a series of Scientific Experiment based upon the theory that "for the successful cure of Wasting Diseases, the nervous system must be made vigorous and healthy." One of the first symptoms of disease affecting either the Liver, Lungs, Heart, Stomach, or Genital Organs is a loss of nervous power. This is followed by muscular relaxation, weakness,

and emaciation of all the organs which depend for health on involuntary muscular action, the Now, as the muscles and nerves depend so much upon each other for efficient strength and action and as the organs they control depend on both, it becomes an actual necessity to treat the nerves For sale, wholesale, by Messrs. Logan, Lind-say & Co., Steeves Bros., Jardine & Co., George permanently cure diseases of the above named

S. DeForest, D. Breeze and Nathan Green. The inventor, acting upon these ideas, after months of experience, during which time he had ample opportunity for trying the effect of his discovery, became convinced that no other pre-paration known contained so potent and direct THE undersigned will receive tenders up to the 13th day of July inst., at 6 o'clock, P.
