Dear Sir.—Esrly in October last I took a severe cold which settled on my lungs. After having a bad cough for about six weeks, I had a severe attack of bleeding from the lungs, while on a voyage from Queenstown to Dover. I had daily spells of bleeding for some days, until I lost about two gallons of blood, and was so weak as to be scarcely able to stand. I put back to Queenstown, where I received such medical assistance as enabled me to get home.
