Telegraphic Aews. Berlin. Oct. 29.—It has now transpired that a strong Russian force was concentrated on the Bokhara frontier until the close of the Berlin Congress, in readiness to enter Afghanistan. It is reported that the Russians are far from resuming retreat on Adrianople. They are reocupying places which they evacuated, especially Kessan, near the Gulf of Saros.

London, Oct. 29.—A despatch from Vienna says England had addressed a protest to Russia against her non-execution of the Treaty of Berlin, but the Times, in its leading editorial article, while admitting that the time had come when some step must be taken, thinks a collective representation of the powers will be most effectual, and believes France, Austria and Garmany will not heritate to combine

London, Oct. 28.—The Times editorial on the change in the Canadian Ministry says: If anything is done to mend make or shape a commercial treaty with us for admitting the products of the union on exceptionally favorable terms, this will be by reciprocity, though by way of forcing the hands of the Washington Government higher duties may be tried first. A differential tariff would thus be contemplated under which commoditites from Germany, France or even Britain. Such a treaty could not be negotiated, still less ratified, without the consent of the Crown. This raises a very delicate question, viz:—how far this limits of self Government in Canada extends, and if the treaties we ernment in Canada extends, and if the treaties we have made with other nations allow us to authorize unequal duties in our colonies. No doubt as far as our hands are free we shall concede to Canada the Woodstock, intend holding a TEA MEETING utmost liberty to fall into error, still we shall not

our hands are free we shall concede to Canada the utmost liberty to fall into error, still we shall not acquiecee in his result without expositulation and romonstrance. We have never concealed the truth that Free Trade between Canada and the United States would be fraught with immense advantage to both countries, but to try to develop an intercharge of commerce by first blocking out the productions of the United States on the strength of the common place arguments of protection is suicidal.

New Yorks, Oct. 29.—A London despatch says the air is heavy with rumors concerning the illness of Lord Beaconsfield. The Cabing; is summoned to consider what should be done in the case of His Lordship's death. After the last meeting of the Cabine to was completed to remain for several hours in the waiting room before it was considered safe to transfer him to a carriage. He was driven to his home in charge of his physician, who has since admitted he had fears of fatal results from the fatigue of this means of transport. A bulletin this morning announces that Lord Beaconsfield is in better health. Loxnox, Oct. 30.—The St. Petersburg Gazette says rumors are persistently current that the Government has decided to offer active assistance to Shore Ali. Many volunteers are preparing to start for Afghanistan. By order of the High Admiral 110 torpedo boats were distributed among the shipe. A Simia despatch states that telegraphic correspondence is proceeding with the heme authorities. The Indian officials appear disappointed with the instructions from the home office, and it is rumored that the Vicercy is instructed to write the American Constraints. Constantinople, Oct. 30.—The Porte asked Prince Lobanoff to explain the return of Russian troops to positions recently evacuated by them, and also their refusal to re-instate Turkish authorities

also their refusal to re-instate Turkish authorities in the district between Tchorlon and Adrianople. Sixty thousand Russians have entered Roumelia by way of Bourjas.

St. Petersburg, Oct. 30.—The Globe says if the Russian people were consulted they would unhesitatingly decide for a renewal ef the struggle. Despite the expediency of diplomacy to arrest the natural course of historical development, it is evident that an inevitable crisis in the eastern question has arrived, and there is no apparent prospect of completing the organization of the Balkan Peninsula on the basis of humanity and justice without a fresh war.

MESSRS. GILES & Co.—Gentlemen: My wife and myself have been using your Iodide Amyou do not advertise it as efficacious for burns, I thought I would advise you of its great value in that direction. A servant in our house burned the back of her hand severely one morning recently and came to my wife saying she could not finish her work she was in such pain. My wife tied a bandage wet with your Liniment about the injured hand, which on the first application started the tears to her eyes. She went about her work. An hour or so later she came to our room, minus the bandage, and my wife asked how her hand was—she had forgotten that it was burned. My wife has burned her fingers several times, always applying your Liniment, and never feeling pain or inconvenience from the burn after. In strapping my razor a few mornings since, it you do not advertise it as efficacious for burns, I In strapping my razor a few mornings since, it slipped and made a deep cut in my left thumb. I immediately applied the Liniment, the cut quickly healed without a particle of soreness. I give you this relation of our experience for the benefit of the public. GRAHAM, - Dear Sir, - I have long desired to add my testimony to the many others you have regarding the efficacy of your Pain Eradicator, and have only been deterred from doing so long ere now by the difficulty of saying all that I have found it good for in the compass of a letter. I have used it in the compass of a letter. I have used it in every kind of pain from a mosquito bite to severe inflammation, and have always found it to give immediate relief. On several occasions suffering from severe pain on the left side, which is almost chronic, and when I otherwise would have had to go to bed and submit to medical treatment, an application of your valuable remedy has made me fit for work in an hour's time. I take pleasure in recommending it when I see any one suffering, and hope for the sake of humanity that its use may be universal. I shall only be too happy to know that you make use of this in any way you think best.

BROCKVILLE, ONT.

DEAR SIR,—It is now two years since your "Constitutional Catarrh Remedy" was introduced to me. I have waited this long to see if the cure would remain permanent before doing this, my duty, to you, as at first the happy effects seemed to me to be "too good to be true."

I was afflicted in my head for years before I suspected it to be Catarrh. In reading in your Circular I saw my case described in many particulars. The inward "drop" from the head had become very disagreeable, and a choking sensation often preventing me from lying long, I would feel like smothering and be compelled to sit up in the bed. My health and spirits were seriously affected. When your Agent came to Walkertown in August, 1876, I secured three bottles. Before I had used a quarter of the contents of one bottle
