sponsible for the state of the poor in the city of Ottawa during the past winter and spring ? One would think to hear him that protectionists were the only breakers of these commandments in the Dominion. Your corres. pondent's endeavor to set the ministers of religion against protection is beneath contempt; also his endeavors to show that the scriptures are opposed to protection ; permit panie me to ask is it wrong for our rulers to encourage home industry? is it contrary to scripture to prefer home productions to those of foreign countries? Is it wrong to try to change the "balance of trade," which is largely against the Dominion, and bring it in our favor ; on the other hand is it right to allow a nation (which charges Canadian manufacturers, &c., duties ranging from 20 to 60 per cent.) to flood our markets with their products at a low rate of duty, and in direc

some cases duty free, and thus crush our struggling industries. The scriptures re-

ourselves, but not better than ourselves .--
